

# Teaching Principles

At Birdsedge First School, we ensure all our pupils achieve **Brilliance** in their knowledge and have **Excellence** in their education, by always adhering to the four Birdsedge Teaching Principles. All lessons taught at Birdsedge First School have **purpose** to learning, **high expectations** of all learners, **equality** of opportunities for all and clear **assessment** to ensure good progress for every child.

At the root of our principles is the driver of **ownership**. That every adult and child have ownership of what they teach and learn and feel pride in all achievements and outcomes.

Together the four principles will ensure that all children develop to their full potential in a supportive environment based on **Trust**, so they can have **Success** in their lives both now and in the future.
