The Dance department is looking forward to welcoming you in September and we know that many of you will be missing your usual dance classes! To help you prepare for A-level study, we have set out a range of resources for you to look at over the next few months so that you feel confident that you have chosen a subject that you will enjoy and commit to. In our first term we focus on developing our knowledge and application of a range of techniques and physical skills. Here are some useful suggestions to maintain your technique, prepare yourself for new styles, and introduce you to our A-Level practitioners.

Firstly, follow us on @BSFC_Dance on both Instagram and YouTube to take a look at our past performances and classwork!

Sian Murray
Head of Performing Arts

What is contemporary dance?

This is a popular question with a million different answers. We will be exploring a number of different techniques which all have a place in the contemporary dance world. You need to understand the qualities and differences between Graham, Cunningham and Release technique at A-Level. For all 3 techniques, you should research the following:

1. Who created those techniques?
2. What are the key qualities/characteristics/stylistic features of those techniques?
3. What does the technique look like? Find pictures and video footage.

Get involved!

Many dance companies are hosting online classes to keep you on top of your technique and expand your choreographic vocabulary.

- Follow @livestreamartsfitness on Instagram for a daily timetable of dance and exercise live streams from a wide range of amateur and professional choreographers, dancers and teachers in a wide range of styles.
- Try the Graham 19 Poses Challenge and submit online. Don’t forget to tag @BSFC_Dance in your attempts!
- Sadler’s Wells Theatre are offering free online classes, workshops, and previews to new dance works.
- Keep on top of your flexibility and strength with Yoga with Adriene.
Grab some popcorn and enjoy these full length works which you will study during your A-level course. Tip - I would recommend that you research these online first to gain an understanding of the themes.

- Akram Khan’s Dust.
- Matthew Bourne’s Swan Lake.
- Akram Khan’s Xenos.
- Matthew Bourne’s Nutcracker.
- Christopher Bruce’s Rooster. (This is in 8 separate sections on YouTube).
- Sidi Larbi Cherkaoui’s Sutra.

When watching, it is important to consider their use of constituent features: actions, space, dynamics, relationships, staging, costume, lighting, props, music and dancers. How do they enhance the themes of the piece? How do they entertain the audience? How does each choreographer use them very differently? Which one do you prefer, and why?
