INSET Days (School Closed)
Monday 1 June 2026

Prayerful Reflection – 6th May 2026

In our worships this week, we have thought about our school values alongside the British Values. We have thought about how each of us is different but equally important and how we can show consideration for others.

Luke 10:27

“...Love your neighbour as yourself.”

Dear God,

Help us to reflect on what we have learnt about British Values and remember that each of us really do matter.

Teach us to consider others in all that we do.

Amen.

Idling Cars

An idling engine can produce up to twice as many exhaust emissions as an engine in motion. Exhaust emissions contain a range of air pollutants such as carbon monoxide, nitrogen dioxide, and particulate matter. These can affect the air quality of the surrounding environment and the air we breathe.

- By turning off your engine you improve air quality, reduce fuels costs and comply with the law.
- Reducing air pollutants can help cut heart disease, reduce lung cancer and prevent asthma attacks.

When dropping off/collecting children from school, please switch off your engines as soon as possible.

Thank you for your cooperation.
