

# In Britain we have...

## The Rule of Law

...a list of rules to make a happy, safe and protected world to live and work in. The leaders of Britain provide us with the rules that everyone has to follow and if they are broken by somebody they will get into trouble.

## Democracy

...knowing that we have a voice and our opinions will be heard. We listen carefully to others and know how to discuss an issue in a calm way; showing respect for others even if we disagree. **Our vote counts.**

## Individual Liberty

... having the opportunity to make the right choices, taking responsibility for our actions and understanding the consequences of our actions. We can manage risks and act in an appropriate way whilst demonstrating our rights.

## Tolerance of those with different faiths and beliefs

Tolerance is where we respect, value and appreciate that we are all special. We show tolerance and kindness to others by not forcing our own views and beliefs onto anyone. We need to remember:  
**Tolerance = Respect.**

## Mutual Respect

...acting in a way to show we care for one another's feelings and beliefs. We may not agree on everything but we should want to work things out. We should treat people in the way we would like to be treated. Care, share and listen to others.
