Pour out upon us the power of your love,
that we may protect life and beauty.**

to be filled with awe and contemplation,
to recognise that we are profoundly united
with every creature

for justice, love and peace.**

MEDIA STUDIES DEPARTMENT PRAYER

**God, who spoke to the world and continues to
communicate with us today;**

**We give you thanks for new media and the endless
possibilities for communication that we now have.**

**We thank you for those who use their creative skills
and technical abilities in order to seek truth. We ask
that they may have wisdom, integrity, insight and
judgement in their work.**

**May they be a voice for the powerless, a challenge
to the powerful; bringers of knowledge and clarity
to an uncertain and confused world. May they
resist the temptation to follow the consensus, jump
to easy conclusions, pander to prejudice or cut
corners.**

**We offer these prayers in the Name of the One who
brought the Good News, declared himself as the
Truth, and gave Himself for a world in need.**

Amen

SCIENCE DEPARTMENT PRAYER

**Our Father,
We praise You for the privilege of new beginnings. Thank
You for letting us peek into Your creation and explore
Your handiwork. Thank You for the secrets You share with
Science Teachers and Students.**

**Enable us to walk with integrity into the opportunities You
lay before us. As we work out of our humanity, teach us
to admire the accomplishments of others without envying
their acclaim, to follow the example of leaders without
belittling their discoveries, to praise the ingenuity of the
creative without distracting them with flattery, to lead the
learner without manipulating the mind, and to grow wise
through reflection, experience and service.**

**Keep our hearts fresh and our minds open to the
possibilities of growth through which You may choose to
stretch us.**

**Help us to handle Your insight with wisdom so that we
can honor You in all our ways, for we recognize that we
abide in Your kingdom, under Your power, for Your glory.**

Amen.
