Revision Guide

All students in Year 11 have the following documents in their folders at school. Students should take these documents home and use them to revise. The first two documents are full of worked examples, that show clearly the way the different types of questions should be answered. All 'command' words are included and matched to the marks available for each style of question. The key words document has all the main subject specific words included with their definitions.

In addition to the documents above students can purchase a revision guide priced at £2.75 (normal price £5.95) from school.

Students have a number of pieces of assessed work and model answers that they can use to go over their prior learning; as well as the work they have carried out in lessons. These are available for students take home.

If students have any questions with approaches to revision, topics they are having difficulty with, they are always welcome to talk to Mr Woodbridge and Miss Sadler at any time.
