

Mathematics Department Key Stage 4 – Examination information

GCSE Mathematics

Subject: **Mathematics**

Examination Board: **Edexcel**

Syllabus: **1MA1F / 1MA1H**

Terminal Assessment

Students will be required to sit three examination papers; one non-calculator and two calculator. Each paper lasts for 1 hour 30 minutes.

Exam Dates

May/June of Year 11

Subject Content

For full details on subject content, please click on the link to the Edexcel specification.

NOTE:

The current GCSE examination can be taken at two different levels – Higher (grades 9 to 4) and Foundation (grades 5 to 1). The Higher papers only contain grades 9 to 4 questions and therefore are not suitable for all candidates. Careful assessment is made of each individual student to ensure that they are entered for the examination that will enable them to maximise their potential.

Level 2 Certificate in Further Mathematics

Subject: **Further Mathematics**

Examination Board: **AQA**

Syllabus: **8360**

This is an advanced course suitable for students likely to achieve a grade 8 or 9 in GCSE mathematics and who are likely to study mathematics at A-level.

Assessment

The course is examined through two papers; a non-calculator paper lasting 1 hour 30 minutes and a calculator paper lasting 2 hours

Exam Dates

June of Year 11

Subject Content

For full details on subject content, please click on the link to the AQA specification.

Level 1 Award in Number and Measure

Subject: **Number and Measure**

Examination Board: **Edexcel**

Syllabus: **ANM10**

This is a foundation course, designed to provide a firm grounding in basic numeracy skills.

Assessment

The course is examined through one paper (split into calculator and non-calculator sections) lasting 1 hour 30 minutes.

Exam Dates

May of Year 11
