25th June 2020

Year 10 Online Work Experience Week – ‘My Week of Work’

Dear Parents/Carers,

As you will be aware, next week Year 10 students were due to undertake work experience. We know lots of students worked very hard to secure high quality placements, and we were highly disappointed to have to cancel the fortnight.

Work experience is a great opportunity for students to learn more about the world of work, develop their employability skills and begin to firm up ideas for the future. To ensure that students do not completely miss out on this opportunity, Year 10 students will be set tasks next week (week beginning 29th June) around the theme of **‘My Week of Work’**. These tasks will be set daily via Class Charts and can be completed online.

The tasks have been developed by the Careers & Enterprise Company and Oak National Academy and are made up of quizzes, videos and activities. There are 4 short tasks each day and should be completed alongside normal work set by teachers.

When they have completed the tasks, students can submit a word document with a few short lines about what they have learnt that day, so we know which tasks they found most valuable.

We hope these tasks will be fun and informative for our students.

Kind regards,

Miss E Darby
Careers Leader

Miss E McGowan
Careers Adviser

Principal - Dr J Coughlan
