My World of Work

Green careers

Be part of changing the world and tackling climate change by choosing a green career.

In a green job you might develop products, provide a service or change the way companies do things that are more friendly to the environment. As more businesses try to be more eco-friendly, every job has the potential to become green.

Discover the endless opportunities.

The impact you could make

- Make a significant and positive difference to tackling climate change.
- Pave the way for a better, more sustainable way of life – helping people now and in the future.
- Play a key role in preserving our environment, wildlife and nature.

APPLICATIONS NOW OPEN

Police Officer Recruitment

APPRENTICESHIPS

Our officers play a vital role in ensuring that the communities of the West Midlands are kept safe. It isn't easy but it is rewarding and can be a career like no other. We want people to join us who have a range of life experiences and backgrounds; it is vital that we represent all of the communities that we serve.

Policing uses plenty of **everyday skills**, from being able to reassure someone who has been a victim of crime to just being that friendly face that encourages a vulnerable person to open up and talk. Our training equips officers for the specialist skills they need to do the job, but it's the **human touch** – kindness, humour, friendliness and empathy – that people remember.

Apprenticeships

NHS apprenticeships

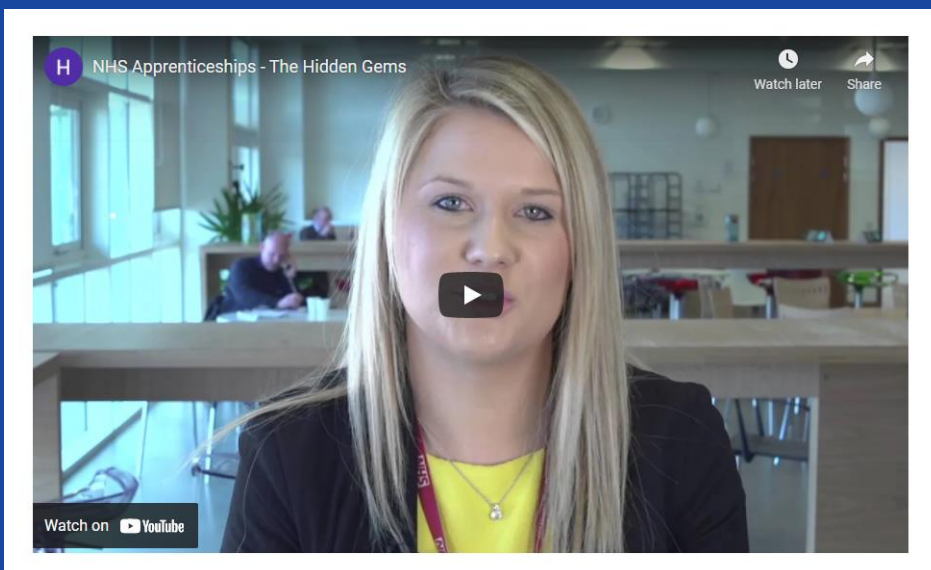

Earn, learn and make a difference with an NHS apprenticeship. Our apprenticeships offer routes into many of the more than 350 NHS careers through a mix of on-the-job training and classroom learning.

What you need to know about NHS apprenticeships

- if you are aged 16 to 18 or 19+ and in your first year of an apprenticeship, the minimum you should receive is £4.30 an hour (the National Minimum Wage for apprentices)
- many NHS employers will pay you more than the minimum wage
- they take between one and five years to complete
- anyone over the age of 16 can do one
- you're likely to spend four days on work placement and one day or at a training centre or college
- you'll develop your skills, including English and maths
- you'll gain a competence qualification (based on what you can do in the workplace) and a knowledge qualification, or a qualification combining both

Not going to Uni? Explore your options!

Not going to uni?

So you're not 100% sure on whether you want to go to university! It's certainly not the only option open to school/A-Level leavers!

One of the main drivers in making such a critical decision is whether or not you know what type of work you want to do – and possibly for the rest of your life! If you want to be a doctor or a dentist, you're pretty limited to the university route! If you aren't 100% sure yet (and you won't be alone here) then it's a great idea to spend some time to explore your options.

There are several places you can get advice including the [National Careers Service](#). One thing is for sure, you don't need a degree to be successful!

OVER 1000 FREE COURSES AVAILABLE!

FREE COURSES WITH OPEN LEARN

Why study a free course on OpenLearn?

Our courses have been proven to increase confidence and develop the skills needed to enter Higher Education and succeed with learning.

You can choose an **OpenLearn** course from a wide range of subjects. Some are based on Open University course materials. Others are written specifically for **OpenLearn**.

OpenLearn

What are the advantages?

- **OpenLearn free courses are available immediately**
- Our courses do not have a start and end date. You can start right away or at a time that suits you.
- **You can work through at your own pace**
- You can spend as long as you like on an **OpenLearn** course, plus, if you sign up you can track your progress and work towards a **statement of participation**.
- **There are around 1000 courses to choose from**
- The courses always focus on a specific area of learning. Some focus on important and fascinating academic subjects, whilst others help you develop skills needed for study or work.
- **You can try out what's on offer from The Open University**
- If you're interested in taking an Open University course but are not sure what to study or if distance learning is right for you, then **OpenLearn** lets you get a feel for what's on offer.

Keble College

UNIVERSITY OF
OXFORD

**APPLICATIONS
STILL OPEN!**

***NEW* Year 12 Subject Taster Days – February 2023** **Maths & Computer Science/History/Chemistry/French & Spanish**

we are looking forward to hosting four in-person Year 12 Subject Taster Days in Oxford in February 2023. These immersive, academically-focused events are designed to support state school students in Year 12 in making informed decisions about their studies. Taster Days in **Maths, History, Chemistry and Modern Languages (French & Spanish)** will offer information about the courses; insight into research, teaching, and career progression; hands-on application advice; and the opportunity to meet Keble tutors and students who share your interests.

Each student can only select and apply for one subject taster day. Please note that places are limited. We aim to choose students who have potential to make a competitive application to Oxford and who will most benefit from the events. The college will consider information such as GCSE results and predicted grades, and may consider educational and socio-economic background, using similar categories to the contextual data which is used in the Oxford admissions process. In case of over-subscription the College may also have to limit the number of attendees per school, and prioritise spaces for schools in our link regions.

Support is available for attendees' travel expenses. Each Subject Taster Day will run from 10:00-15:00. For any questions contact outreach@keble.ox.ac.uk.

Dates & subjects available

Monday 20th February – Mathematics & Computer Science (applicants should be studying Maths at A-Level, open to those interested in either or both courses)

Tuesday 21st February – History (applicants should be studying History at A-Level)

Wednesday 22nd February – Chemistry (applicants should be studying Chemistry and Maths at A-Level)

Thursday 23rd February – Modern Languages (applicants should be studying French and/or Spanish at A-Level)

[Apply here for Keble College's Subject Taster Days](#)

Applications for all Subject Taster Days will close at noon on Monday 6th February 2023.

YEAR 12 OPPOR.

APPLICATIONS

Let open days open your mind to what a university or college has to offer...

UCAS

1

Plan your day

Decide in advance which talks you want to go to so you don't miss the topics you're interested in.

2

Make notes

There's a lot to take in so it'll help when you come to comparing different universities and colleges afterwards.

3

Get talking!

No one knows a university better than its students, so take the opportunity to talk to them during campus tours and accommodation visits.

4

Ask questions (lots of them!)

Make a list of what you want to know before you set off and check you've got all the answers before heading home.

5

Keep in touch

Take an email address for someone you can contact after your visit in case you think of more questions you'd like to ask.

For open day dates go to

www.ucas.com/open-days-dates

opendays.com

university + college open days

Opendays.com is a web site providing students with university and college open day information.

The most comprehensive open days web site in the UK.

Easily accessible listings of all university and college open days throughout the UK.
