

GREEN CAREERS WEEK

Green Careers Week

6th – 11th November 2023

WHAT IS A GREEN JOB?

Demand for green jobs is increasing as industries prepare themselves for a greener future and net zero. In this week's bulletin we look at what green jobs are and how people can get into them.

My World of Work

Green careers

Be part of changing the world and tackling climate change by choosing a green career.

In a green job you might develop products, provide a service or change the way companies do things that are more friendly to the environment. As more businesses try to be more eco-friendly, every job has the potential to become green.

Discover the endless opportunities.

The impact you could make

- Make a significant and positive difference to tackling climate change.
- Pave the way for a better, more sustainable way of life – helping people now and in the future.
- Play a key role in preserving our environment, wildlife and nature.

Working in a green career

There are lots of positive benefits of working in a green job, not just for the environment but also for yourself. You can use a variety of skills, explore different routes and work across many industries.

“

One of the main challenges in my job is to not get disheartened by the climate crisis.

I believe that the young generation of climate scientists has a huge role to play, and this motivates me, inspires me and I really think we can do it!

”

Galina, Climate Scientist
UKCEH, University of Edinburgh

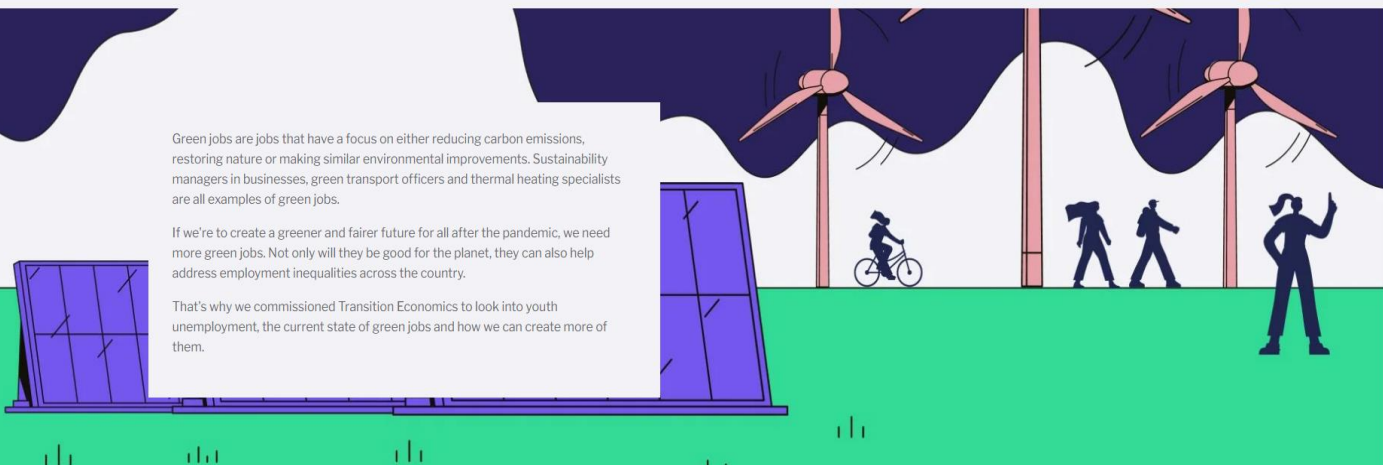

**Friends of
the Earth**

What's a green job and how can we create more of them?

Green jobs are jobs that have a focus on either reducing carbon emissions, restoring nature or making similar environmental improvements. Sustainability managers in businesses, green transport officers and thermal heating specialists are all examples of green jobs.

If we're to create a greener and fairer future for all after the pandemic, we need more green jobs. Not only will they be good for the planet, they can also help address employment inequalities across the country.

That's why we commissioned Transition Economics to look into youth unemployment, the current state of green jobs and how we can create more of them.

Welcome to [environmentjob](https://environmentjob.com). With hundreds of advertisers, we're by far the UK's busiest environmental job site. Happy job hunting!

THE RIGHT PEOPLE

The key to the success of any organisation is getting the right people.

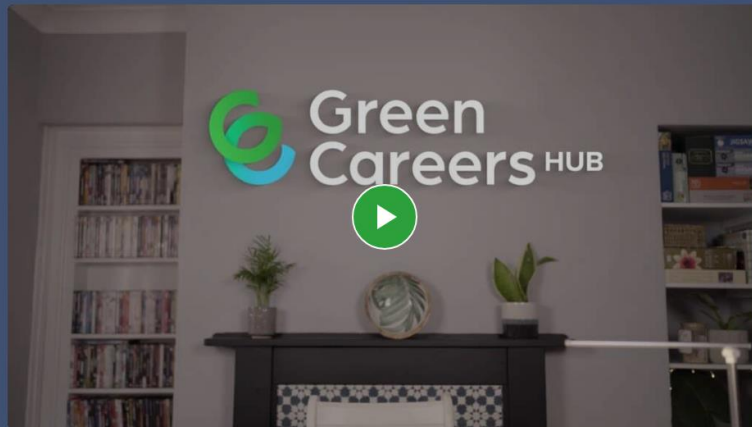

Our motivation is to make it as easy as possible for environmental organisations, however small, to advertise nationally.

Since 2002 – we've posted **75,000 ads** and helped over **3,000 organisations** find great people.

We are here to help you drive change

To get to a future where we're living and working sustainably, we believe that every single job needs to be greener. Browse the site to find out what role you can play.

Key features

The Green Careers Hub is relevant to everybody, regardless of the stage of their career, and can be used by individuals, organisations and educational institutions to educate and inspire.

Job profiles, outlining tasks and skills that support the green agenda

Career journey stories of individuals in the workplace

Current job opportunities that align to the green agenda

Careers advice and support

Information on relevant upskilling and learning

Organisation case studies

CELEBRATE Green careers week!

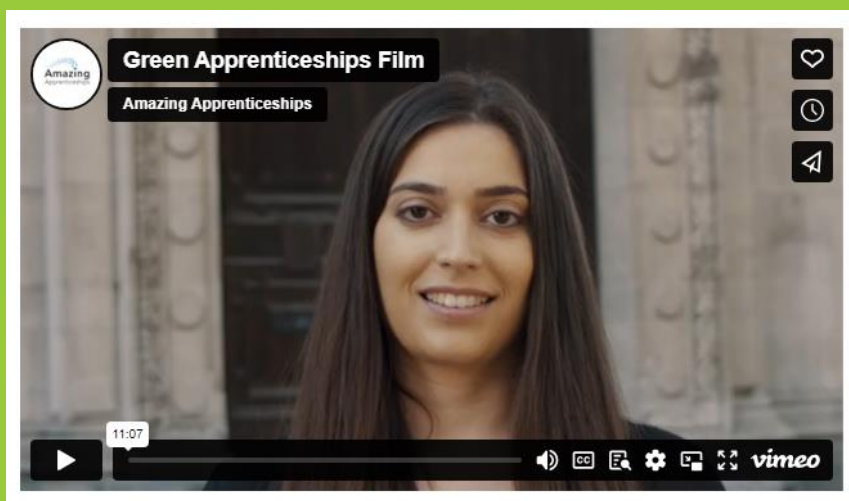

Green Careers Week is set to take place on **6th – 11th November 2023** – and we're joining in the celebrations with inspirational resources that focus on inspiring apprenticeships in green industries and jobs.

Designed to help teachers, young people, parents and carers get to grips with emerging technologies and careers, Green Careers Week sees the launch of a programme of events and resources designed to help highlight exciting careers pathways in the sustainability, ecological and green spaces.

We've created a **Green Apprenticeships Film**, featuring amazing apprentices from Amazon, Essex County Council, Leonardo, GEA, Rothamsted Enterprises, Suffolk County Council and more.

The film showcases the many ways that apprentices from a wide range of roles are helping to push the green agenda forward, working with a real sense of purpose and driving real change.

Watch the full-length film [here](#) or check out our supporting green resources below!

Click [here](#) to register.

Insight into University Residential

Insight into University Residential Experience (previously known as Headstart) are summer schools run over 4 or 5 days where students get a taster of university life and an insight into a specific STEM subject. Students will get the opportunity to experience university style lectures and work on activities and group projects with the support of academics and student mentors. Students will stay in halls of residence and will take part in social activities in the evenings.

These courses are for Year 12/S5-6 students and are a great way to try out a STEM subject at university before applying. This allows students to make a better informed decision for their UCAS application, as well as meeting like-minded students from all over the UK.

These summer schools are run for small groups (on average 30 students) and so places are limited.

Courses running in summer 2024

Maths at Lancaster
Mechanical Engineering at UCL
Materials Science at Oxford
Broad-based Engineering at Sheffield
Materials Science at Cambridge
Aerospace Engineering at Liverpool
Ocean & Earth Science at Southampton

Additional courses coming soon!

Find out more and apply on our website
[here](https://www.etrust.org.uk/residential-insight-into-university).

What our students say

"A wonderful experience which a few years ago I wouldn't have dreamed of going on. The staff were so supportive and everything was fascinating. Thank you all so much for this chance, it was something I'll remember and reap the benefits of for the rest of my life!"

"I greatly enjoyed it. This course has given me the opportunity to demystify university life for myself and also interact with those just as enthusiastic as myself. It was a great chance to experience life independent of my family for the first time. I now know how university life will be, and so I feel more comfortable pursuing it."

Statistics from 2023

99%

of participants said they would recommend the course to other students!

96%

of participants said they felt the experience on the course will help them make a better informed decision for their UCAS application.

Aston University Open Days

Friday 7 July

Saturday 30 September

Saturday 18 November

Birmingham

- Meet lecturers at subject-specific talks
- Ask questions about your course
- Talk to our current students about life as an Aston University student
- Take a campus tour
- Speak to our admissions and finance teams and more.

Let open days open your mind to what a university or college has to offer...

UCAS

1

Plan your day

Decide in advance which talks you want to go to so you don't miss the topics you're interested in.

2

Make notes

There's a lot to take in so it'll help when you come to comparing different universities and colleges afterwards.

3

Get talking!

No one knows a university better than its students, so take the opportunity to talk to them during campus tours and accommodation visits.

4

Ask questions (lots of them!)

Make a list of what you want to know before you set off and check you've got all the answers before heading home.

5

Keep in touch

Take an email address for someone you can contact after your visit in case you think of more questions you'd like to ask.

For open day dates go to

www.ucas.com/open-days-dates

**WHAT
UNI?**

Not going to Uni? Explore your options!

Not going to uni?

So you're not 100% sure on whether you want to go to university! It's certainly not the only option open to school/A-Level leavers!

One of the main drivers in making such a critical decision is whether or not you know what type of work you want to do – and possibly for the rest of your life! If you want to be a doctor or a dentist, you're pretty limited to the university route! If you aren't 100% sure yet (and you won't be alone here) then it's a great idea to spend some time to explore your options.

There are several places you can get advice including the [National Careers Service](#). One thing is for sure, you don't need a degree to be successful!

A BRAND-NEW FILM TO CELEBRATE 100 YEARS OF ARMY APPRENTICESHIPS

This month, the nation's number 1 apprenticeship employer - the British Army, is celebrating 100 years of offering apprenticeships!

To mark this special occasion, we went along to the Army Foundation College (AFC) in Harrogate and met some incredible Junior Soldiers to find out what life is like at the college and the opportunities available.

WATCH THE FILM NOW

AFC Harrogate supports 16 and 17 year olds in learning military skills, fitness and education (including English and Maths) so they're ready for an apprenticeship and successful career in whichever part of the Army suits them best - all whilst earning a good wage and making friends for life.

The Access to Birmingham (A2B) programme helps University of Birmingham applicants with little or no higher education experience to explore what studying at university involves.

The University of Birmingham has a long history of welcoming students from a wide variety of social and cultural backgrounds. We were one of the first universities to set up a fair access scheme for local students in 2000 and are proud to be able to offer you the support of our A2B scheme if you are studying at one of our partner institutions.

Apply to A2B

Applications for the 2023/24 A2B scheme are open until 15 February 2024. Completing the programme will bring you a range of benefits including an alternative offer and funding. We encourage you to explore our programme information and eligibility and consider applying.

APPLY NOW

Benefits of taking part in the programme

Once you complete A2B successfully, you will receive two offers from the University of Birmingham, the standard offer and a [Pathways to Birmingham offer](#).

The Pathways to Birmingham offer is typically a reduction of up to two A level grades (e.g. BBB rather than AAB).

As well as the Pathways to Birmingham offer, you will also benefit from:

- Financial support
- Continued support and guidance from an experienced and dedicated A2B team
- Preparation for the transition from school to university study
- The opportunity to make new friends at a special induction event before you start university
- Becoming a Birmingham Scholar upon starting university
- Practice interviews for courses where relevant (Medicine, Dentistry, Social Work, Nursing, and Physiotherapy)

EXPLORE THE BENEFITS

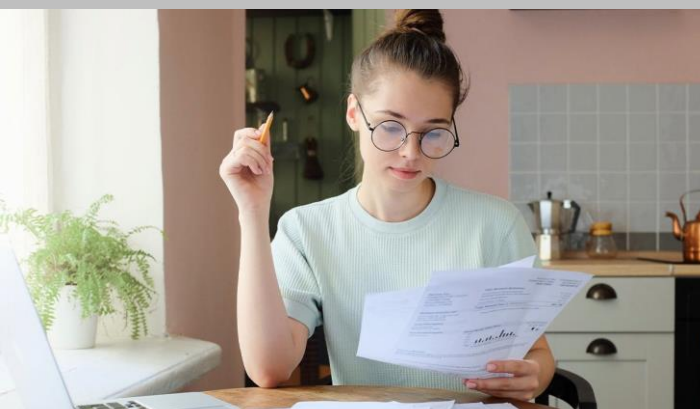

BIRMINGHAM CITY
University

SCHOOLS AND COLLEGES VIRTUAL HUB

We have created a range of resources for you to help you explore the world of Higher Education. From videos to how to guides, there's something for everyone and you can use these resources to support you with your choices about your future. These resources will help you from the beginning of your journey, when you are just starting to think about university through to preparing yourself for the move. These can be done at home individually and you can share them with your teachers and advisers.

Our aim is to provide you with a range of useful information and activities to help you with making decisions about your future.
