# 5 Ways to Make the Most of Your Revision Time

by @inner\_drive | [www.innerdrive.co.uk](http://www.innerdrive.co.uk)

## Space Out Your Learning

Don't leave everything to the last minute. Start early and revisit topics regularly. This will help keep information in your long term memory.

## Create a Sense of Purpose

Telling yourself how learning the material will help you achieve your future goals can help create a sense of purpose and keep you motivated.

## Test Yourself

Research suggests that this is one of the most effective ways to improve your memory. It can help prepare you for exam conditions.

## Sleep Well

Sleep plays a major role in how you feel and how much you remember. Don't neglect getting a good night's sleep. Regular routines such as consistent bedtime and wake-up times will help.

## Teach It

By teaching the material to someone else, it can help ensure you fully understand the main concepts with clarity.

## Exams and revision

Exams can be stressful, but don't worry: we've got you. Check out our handy tips and advice for keeping on top of your studies and revision.

## Study support

Bitesize Study support is the go-to place to support you through your studies and other life challenges. With tips and advice to help with revision, exam stress, bullying and more... we've got you

# EXAM TIPS

1

## Make a revision timetable

Help set up your time management. Write down how many exams you have and on which days you have them. Then adjust your study accordingly. You may want to give some exams more time than others, so find a balance that works.

3

## Think positively

Remind yourself on how you overcame previous set backs. This will help you deal with future challenges and help build a mental resilience. View the exam as an opportunity or as a challenge.

5

## Don't compare yourself with others

Remember, everyone's different and everyone studies differently. Focus on yourself and not on others as this will stress you out. Instead, focus on what you can control.

2

## Get enough sleep and drink enough water

Being well hydrated is essential for your brain to work at it's best so make sure you drink plenty of water throughout your studies and on exam day.

Use sleep to your advantage and plan ahead. Don't over use caffeinated drinks in an effort to stay awake!

4

## Take regular breaks

If you were training for a marathon, you wouldn't try to run for 24 hours a day. Likewise, studies have shown for long-term retention of knowledge, taking regular breaks really helps.

Everyone's different, so develop a study routine that works for you and don't feel guilty about being out in the sunshine instead of hunched over textbooks!

Essential support for under 25s

Supporting you and your mental health.

Help for anyone under 19yrs old.

## Work experience and internships

It's advisable to try out a career before settling on it, so if you're in need of work experience ideas learn more about internships, online experience, work placements, shadowing, volunteering and part-time work.

You don't need to wait until you leave sixth form or college to gain an insight into the world of work - A-level students can now join Year 12 work experience schemes run by many of the UK's biggest employers.

Many of the leading recruiters that run graduate schemes also offer early careers programmes for school leavers and above. This includes everything from degree apprenticeships to work experience for those still studying their A-levels.

WORK EXPERIENCE

## **140+ Work Experience Ideas (Ideal for Year 10 and Year 12)**

When it comes to applying for jobs and university, you need to find a way to make your application stand out. When you're fresh out of school or university, this can be difficult as you will often not have much to put onto your university application or CV.

Something that can help to make you stand out from the crowd is having experience, particularly in the area that you want to go into. While work experience can be an important part of your application, it can be difficult to know how to get it.

### **General work experience ideas**

Getting work experience can be incredibly important and useful regardless of what you want to do in the future. Even if you're not sure what you want to study or don't have any particular career that you're interested in, getting work experience is still worth your time.
