

Y11 Revision

GEOGRAPHY

The 3 topics they will sitting are:

The Living World (taught in Y10)

The Challenge of Natural Hazards (taught in Y11)

Urban Issues and Challenges (taught in Y10)

As it is just under 3 weeks to go, they could revise 1 topic thoroughly per week, starting with the oldest topic of The Living World, then Urban Issues and Challenges and then The Challenge of Natural Hazards. Students have a variety of revision aids and guidance including:

- A3 mindmaps where they fill in the missing information
- The Challoner revision guide which contains practice exam questions
- The Seneca online revision website

When using the practice exam questions in the Challoner revision guide, students are advised to put a tick next to each question if you can answer it, a question mark if they're mildly confident or an X if they are struggling to answer the question – this will help to focus their revision.
