

**Year 10 Assessments
Summer 2024**

| Subject | Summary of Exam (Type/length) | Teaching Group/Time & Date | Topic content |
|---|--|--|--|
| English | English Language Paper 1 (AQA) | All Year 10 Classes in the auditorium/exam rooms Thursday 13 th June (AM) | Read one extract Part A – Reading Q1 – List 4 things you learn about... [4marks] Q2 – How does the writer use language to describe...[8 marks] Q3 – How does the writer use structure to interest you as a reader? [8 marks] Q4 – To what extent do you agree with the statement [20 marks] Part B – Writing Writing to describe using a picture [40 marks] |
| Mathematics | Calculator Paper 90 minutes Non-Calculator Paper 60 minutes | All Year 10 classes in the auditorium/exam rooms Calculator Paper Wednesday 12 th June – P1+2 (auditorium) Non-calculator paper Wednesday 19 th June (PM) | All content covered so far across Y9 and Y10 – revision lists given to every student and are on classcharts Please see additional topic guidance |
| Combined Science Biology EDEXCEL | 45 min paper | Tuesday 14th May 10x3 - period 4 MAY 10x4 - period 4 JM 10y1 - period 3 JCN 10y2 - period 3 BIB 10y3 - period 3 GLB 10w1 - period 5 JN 10w2 - period 3 CLY | Higher: Topics 1-4 Topic 5 points 5.1-5.5, 5.6 only in relation to (b) TB causing lung damage and (e) HIV (virus) destroys white blood cells, leading to the onset of AIDs Foundation: Topics 1-4 Topic 5 points 5.1-5.5, 5.6 only in relation to (b) TB causing lung damage and Topic 5 point 5.12 (barriers and defences) |
| Combined Science Chemistry EDEXCEL | 45 min paper | Thursday 16th May 10x3 - period 5 GHO 10x4 - period 5 JN 10y1 - period 1 GLB 10y2 - period 1 RAM 10y3 - period 1 JN 10w1 - period 2 BIB 10w2 - period 2 GHO | Higher and Foundation: Topics 1,2 and Acids from Topic 3 (Electrolysis not assessed) |
| Combined Science Physics EDEXCEL | 45 min paper | *DATE CHANGE* Tuesday 21st May 10x3 - period 4 GLB 10x4 - period 4 JM | Higher: <ul style="list-style-type: none"> Understand the meaning of scalar and vector quantities and know some examples of each. |

**Year 10 Assessments
Summer 2024**

| Subject | Summary of Exam (Type/length) | Teaching Group/Time & Date | Topic content |
|---------|----------------------------------|--|---|
| | | 10y1 - period 1 JCN 10y2 - period 1 BIB 10y3 - period 1 JN 10w1 -period 5 RAM 10w2 - period 5 HY | <ul style="list-style-type: none"> • Know how to interpret velocity – time graphs, understand what information can be obtained from gradient and area calculations. • Recall and apply the wave equation. • Measuring the speed of water waves using the ripple tank – must be able to describe the method. • Recall and apply the equation for momentum • Recall and apply the equation for kinetic energy • Know the similarities and differences between the waves on the electromagnetic spectrum. • Know the uses and dangers of ionising and non-ionising electromagnetic radiation. • Understand what is meant by the half-life of a radioisotope and how it can be determined from a decay curve. • Size of the nucleus and the atom. • Properties of alpha, beta and gamma radiation. <p>Foundation:</p> <ul style="list-style-type: none"> • Understand the meaning of scalar and vector quantities and know some examples of each. • Know how to interpret speed – time graphs, understand what information can be obtained from gradient and area calculations. • Recall and apply the wave equation. • Measuring the speed of water waves using the ripple tank – must be able to describe the method. • Be able to label/identify the features of a wave, e.g. wavelength, amplitude, frequency. • Know the order of the waves on the electromagnetic spectrum, also their uses/dangers. • Know the difference between transverse and longitudinal waves. • The structure of the atom and the process of how an atom can become an ion. • Properties of nuclear radiation. • Understand what is meant by thinking distance and braking distance and what factors can affect the stopping distance of vehicles. |

**Year 10 Assessments
Summer 2024**

| Subject | Summary of Exam (Type/length) | Teaching Group/Time & Date | Topic content |
|--------------------------------------|---|--|---|
| Biology (X1 and X2) EDEXCEL | 45 min paper | Tuesday 14th May 10x1 - period 4 GLB 10x2 - period 4 RAM | Higher: Topics 1,2,3,4 Topic 5 points 5.1-5.5, 5.6 only in relation to (b) TB causing lung damage and (e) HIV (virus) destroys white blood cells, leading to the onset of AIDs |
| Chemistry (X1 and X2) EDEXCEL | 45 min paper | Thursday 16th May 10x1 - period 5 SE 10x2 - period 5 CLY | Higher: Topics 1,2 and 3 Electrolysis is included |
| Physics (X1 and X2) AQA | 45 min paper | *DATE CHANGE* Tuesday 21st May 10x1 - period 4 BIB 10x2 - period 4 CLY | Higher: <ul style="list-style-type: none"> • Understand the National Grid is a system of cables and transformers linking power stations to consumers. • Students should be able to explain why the use of step-up transformers and step-down transformers on the National Grid system makes it an efficient way to transfer energy. • Be able to use the equation:- energy transferred = charge flow × potential difference ($E = QV$) • Be able to use the particle model to explain how increasing the temperature, at constant volume, can lead to an increase in gas pressure. • For a fixed mass of gas held at a constant temperature - Be able to use the equation:- pressure × volume = constant ($pV = \text{constant}$) • Be able to explain what is meant by the half-life of a radioactive sample and be able to calculate it from a decay curve. • Know the properties of alpha, beta and gamma radiation and describe their uses and evaluate the best sources of radiation to use in a given situation. • Describe in detail how to determine the densities of regular and irregular solid objects. |
| Art and Design | Component 1 Final piece for Year 10 coursework project 5 Hour practical examination | TBC | The 5 hour practical examination will be used to create a series of final outcomes based on your preparatory A5 sketchbook. Your sketchbook can be referred to throughout the exam. You will have a tutorial prior to the exam to discuss your choice of theme, scale, media and technique. This is a crucial piece of GCSE coursework for Component 1. It is important to plan compositions and explore media in your sketchbooks prior to the exam. |

**Year 10 Assessments
Summer 2024**

| Subject | Summary of Exam (Type/length) | Teaching Group/Time & Date | Topic content |
|------------------------------------|--|---|---|
| RE | 90 min paper | All Year 10 Classes in the auditorium/exam rooms | <p>The paper will cover two topics – 1) Origins and Meanings and 2) Good and Evil</p> <p>All revision materials and content lists will be uploaded onto Class Charts for all students.</p> |
| BTEC Sport | <p>Students are currently completing their Component 1 Controlled Assessment(s) - Worth 30% of Overall GCSE Grade.</p> <p>Once complete, students will move onto Component 2 (<i>Taking part and improving other participants' sporting performance</i>) - Also worth 30% of Overall GCSE Grade.</p> | <p>10A/Bf1 ONGOING.</p> <p>10A/Bf2 ONGOING.</p> <p>10yw/Bf1 ONGOING.</p> <p>All work is internally assessed/externally moderated.</p> <p>Estimated completion date (Component 1) for all classes Monday 29th April 2024.</p> | <p>Component 1 – <i>Preparing participants to take part in Sport and Physical Activity.</i></p> <p>Task 1 – <i>Increasing participation in regular sport or physical activity for different types of sports participants. Based on the vocational context provided, students are to justify reasons for selected sports, relate to types of provision and explain any barriers/solutions to exercise adherence.</i></p> <p>Task 2 – <i>Equipment and technology required for participants to use when taking part in sport and physical activity. Based on the vocational context provided, students are to justify all the different clothing, equipment and technology available for a selected sport.</i></p> <p>Task 3 – <i>Preparing participants to take part in sport and physical activity. Based on the vocational context provided, students are to plan and lead a warmup to their peers.</i></p> |
| BTEC Health and Social Care | <p>Students are completing their Component 1 (10C) and Component 2 (10YW) controlled assessment.</p> <p>Once complete students will continue the completion of their Component 1 classwork (10YW) and Component 2 classwork (10C) in readiness for their second controlled assessment in October 2024</p> | <p>10C/10YW - estimated completion of controlled assessment – Wednesday 1st May 2024.</p> | <p>Component 1 - 10C</p> <p>Task 1 – PIES growth and development through the life stages Produce a report on the physical, intellectual, emotional and social (PIES) growth and development that occur in the life stages of early adulthood and later adulthood.</p> <p>Task 2 – Impact of different factors on PIES growth and development through the life stages Produce a report on how specific factors can affect the PIES growth and development of individuals in the life stages of early adulthood and later adulthood</p> <p>Task 3a – Impact of life events on PIES growth and development Read the case studies on Manu and Olivia provided in Appendix 1. Produce a report that considers how each of their life events has impacted on their growth and development physically, intellectually, emotionally and socially</p> <p>Task 3b – How individuals adapt to life events Produce a report on how Manu and Olivia, in the case studies provided in Appendix 1, have adapted to life events.</p> <p>Component 2 – 10YW</p> <p>Task 1 – How healthcare services work together to meet the needs of an individual Produce a report on how different health care services work</p> |

**Year 10 Assessments
Summer 2024**

| Subject | Summary of Exam (Type/length) | Teaching Group/Time & Date | Topic content |
|---------------------------------|--|---|---|
| | | | <p>together to meet the needs of a forty-seven-year-old who has Chronic Obstructive Pulmonary Disorder (COPD).</p> <p>Task 2 – How social care services meet the needs of an individual Produce a report on how social care services can meet the needs of a twelve-year-old who is in foster care arranged by the local authority.</p> <p>Task 3 – Barriers an individual could face when accessing services in health or social care Produce a report on the barriers an individual could face when accessing services in health or social care and provide suggestions of how these could be overcome. Your report must be based on a 36-year-old; they have a hearing impairment. They live alone in a rural village and do not have a car of their own. They need to attend an appointment at their GP in a nearby town</p> <p>Task 4 – How healthcare professionals demonstrate the skills, attributes and values required when delivering care to an individual Produce a report to show how healthcare professionals might demonstrate the skills, attributes and values required when delivering care to a child who has had an accident and now has a head injury</p> |
| <p>Business GCSE</p> | <p>One paper: 1 hour 45 minutes</p> | <p align="center">10C Periods 5 and 6 Monday 10th June</p> <p align="center">10A Period 1 Monday 10th June</p> <p align="center">Period 3 Thursday 13th June</p> | <p>Mixture of multiple choice, short answer and extended response questions. Section A has no contextual information required. Sections B and C are based on two separate case studies, where contextual information must be used in all answers.</p> <p>Topic areas:</p> <ul style="list-style-type: none"> • Business ownership • Social media • Market research • Aims and objectives • Branding • Interest and loan calculations • Franchises • Business location • Stakeholders and conflict • External influences • Sources of finance • Costs, revenues, profits and break-even • Cash flow • Goods and services • Added value • Risks and rewards to entrepreneurs • Segmentation |
