## **GUIDANCE NOTES**

### **Responsibility for Health and Safety in Schools**

#### **Health and Safety at Work Law**

Health and safety responsibilities derive from the Health and Safety at Work. Act 1974 and associated regulations. Health and safety legislation is enforced by the Health and Safety Executive (HSE).

#### **Employer**

The Health and Safety at Work. Act 1974 places overall responsibility for health and safety with the employer i.e. the trustees of the school.

#### **Employees**

Employees have responsibilities too. The Health and Safety at Work. Act 1974 and the Management of Health and Safety at Work Regulations 1999 apply to them as well.

Employees must:

- Take reasonable care of their own and others health and safety.
- Co-operate with their employers.
- Carry out activities in accordance with training and instructions.
- Inform the employer of any serious risks.

#### **Enforcement**

The HSE enforces health and safety law relating to the activities of LEAs and schools. Because the employer is responsible for health and safety in the workplace and on work activities the HSE will normally take action against the employer. However, in some circumstances, for example where an employee failed to take notice of the employer's policy or directions in respect of health and safety, the HSE may take action against the employee as well or instead.

#### **Responsibility of all Schools**

The employer must have a health and safety policy and arrangements to implement it. The Health and Safety at Work Act 1974 and other statutory regulations apply. Employers must assess the risks of all activities, introduce measures to manage those risks, and tell their employees about the measures. The Management of Health and Safety at Work Regulations 1999 apply. In practice, employers may delegate specific health and safety tasks to individuals but the employer retains the ultimate responsibility no matter who carries out the tasks.

#### **Health and safety of students**

The health and safety of students is the responsibility of the teacher in charge at the time, whether on the school premises or not.

If for any reason the condition or location of the equipment, the physical state of the room, or the splitting of a class for practical work, a teacher considers he/she cannot accept this responsibility, he/she should discuss the matter with the Headteacher before allowing any activity to take place.

The class teacher should:

- Exercise effective supervision of the students and seek information on emergency procedures (as outlined in staff handbook) and carry them out as necessary.
- Seek information on the special safety measures to be adopted in his/her own teaching areas and ensure they are applied.
- Give clear oral and written instructions and warnings as necessary.
- Follow safe working procedures personally.
- Request the Headteacher to provide protective clothing, guards, special safe working procedures, etc. as necessary.
- Make recommendations to Headteacher on safe working procedures, safety equipment and additions or improvements to plant, tools, equipment, etc. which are dangerous or potentially so.

The above also apply to Associate Teachers, who must be made aware of their responsibilities.

Students should:

- Be instructed to avoid Health and Safety risks to himself/herself, fellow students and others who may be affected by the activities involved.
- Observe standards of dress consistent with safety and/or hygiene.
- Observe all the safety rules of the school and in particular the instructions of staff given in an emergency.

<b>G</b>	Guillotine/Rotary Trimmers	Guillotines <b>must</b> only be used with a guard and any rotating machines must have appropriate interlocks
<b>H</b>	Second Hand Goods	Second hand goods should be only be purchased if their condition has been assessed by someone with the appropriate expertise. The Headteacher should ensure that if there is any doubt as to the condition or method of operating, etc., specialist advice should be sought.
