

October Library Selection

Which spooky read will cast its spell on you?

October's the ultimate time to grab a book that'll give you chills (in a good way). The Student Librarians have hand-picked a stack of creepy, weird, and downright terrifying reads.

We're talking classics like *Dracula* and *The Witches*, fast-paced hits like *Goosebumps* and *Harwood Forst*, and even *Jurassic Park* - trust us, the book is way scarier than the movie. 🐼

So, swing by the library, pick your poison, and get ready for a fright night in book form!
