The lawful basis on which we use this information

We make sure that information we collect and use about students is in line with the GDPR and Data Protection Act. This means that we must have a lawful reason to collect the data, and that if we share that with another organisation or individual we must have a legal basis to do so.

The lawful basis for schools to collect information comes from a variety of sources, such as the Education Act 1996, Regulation 5 of The Education (Information About Individual Students) (England) Regulations 2013, Article 6 and Article 9 of the GDPR.

The Department for Education and Local Authorities require us to collect certain information and report back to them. This is called a 'public task' and is recognised in law as it is necessary to provide the information.

We also have obligations to collect data about children who are at risk of suffering harm, and to share that with other agencies who have a responsibility to safeguard children, such as the police and social care.

We also share information about students who may need or have an Education Health and Care Plan (or Statement of Special Educational Needs). Medical teams have access to some information about students, either by agreement or because the law says we must share that information, for example school nurses may visit the school. Counselling services, careers services, occupational therapists are the type of people we will share information, so long as we have consent or are required by law to do so.

In school we also use various third party tools to make sure that students' best interests are advanced. This includes financial software to manage school budgets, which may include some student data. We use systems to take electronic payments for school meals, additional resources and trips. We use software to track progress and attainment. We must keep up to date information about parents and carers for emergency contacts.

We also use contact information to keep students, parents and carers up to date about school events.

We may be required to share information about our students with the local authority to ensure that they can conduct their statutory duties under:

- the [Schools Admission Code](#), including conducting Fair Access Panels.

Collecting student information

We collect student information via data collection sheets and Common Transfer File (CTF) or secure file transfer from previous school.

Student data is essential for the schools' operational use. Whilst the majority of student information you provide to us is mandatory, some of it requested on a voluntary basis. In order to comply with the data protection legislation, we will inform you at the point of collection, whether you are required to provide certain student information to us or if you have a choice in this and we will tell you what you need to do if you do not want to share this information with us.

The student data that we lawfully share with the DfE through data collections:

- underpins school funding, which is calculated based upon the numbers of children and their characteristics in each school.
- informs 'short term' education policy monitoring and school accountability and intervention (for example, school GCSE results or Student Progress measures).
- supports 'longer term' research and monitoring of educational policy (for example how certain subject choices go on to affect education or earnings beyond school)

The National Pupil Database (NPD)

Much of the data about pupils in England goes on to be held in the National Pupil Database (NPD). The NPD is owned and managed by the Department for Education and contains information about pupils in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the department.

It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

To find out more about the NPD, go to <https://www.gov.uk/government/publications/national-pupil-database-user-guide-and-supporting-information>

Sharing by the Department

The law allows the Department to share students' personal data with certain third parties, including:

- schools
- local authorities
- researchers
- organisations connected with promoting the education or wellbeing of children in England
- other government departments and agencies
- organisations fighting or identifying crime

For more information about the Department's NPD data sharing process, please visit:

Organisations fighting or identifying crime may use their legal powers to contact DfE to request access to individual level information relevant to detecting that crime. Whilst numbers fluctuate slightly over time, DfE typically supplies data on around 600 students per year to the Home Office and roughly 1 per year to the Police.
