

Bishop Rawstorne Church of England Academy

13 January 2021

Dear Parent/Guardian.

As we face an extended period of time home learning, the art department are keen to set work that all year 7 students can access and continue to develop their skills.

We are currently working on a project exploring colour theory and it would be really beneficial for students to have access to some form of paint.

At the moment I am setting tasks that require the use of colour pencils but if students had their own set of watercolour paints this would enable us to develop their painting skills at home whilst we're away from the art classrooms.

Below are some links to basic beginner sets of watercolour paints. With all art equipment quality products can be costly but these are reasonably priced and suitable for use in our sketchbooks for a range of tasks. Students will be able to use these for future homework through Year 7 and 8 whilst they continue their art education.

If you already have paints at home then an additional purchase is not necessary. Any purchase is welcomed but not compulsory as I appreciate in the current climate, this might not be possible.

Thank you for your ongoing support. I have been especially impressed with how our Year 7s have embraced life at Bishops and have been producing beautiful art work.

Kind regards

Mrs J Armitage
Lead teacher of Art
