

SEND Curriculum Statement

All pupils follow the National Curriculum at a level and pace that is appropriate to their needs and ability. We promote a culture of inclusion where every student has an equal opportunity to succeed and become the best that they can be. Students with SEND are fully integrated into the mainstream curriculum using high quality adaptive teaching and learning strategies that provide access for all. Withdrawal from lesson time is avoided and is only ever replaced with high quality targeted intervention, which has a measurable impact on progress. Examples of interventions include; Lego therapy, Toe By Toe and Precision Teaching.
