

How can I help my child's learning at home?

Year 6 continues to be an extremely important year for your child... here are lots of things that you can do as a parent to assist your child with their learning:

- *Try to hear your child read every night for at least 5-10 minutes – discuss what they have read, and the meaning of new words. Enjoy this time together!*
- *Encourage your child to write a summary about what they have read to check they have understood it.*
- *Help your child to achieve their reading, writing and handwriting targets.*
- *Practise their times tables using TTRockstars or Hit the Button. Encourage your child to complete their homework each week.*
- *Log into Google Classrooms to see any extra work they can do at home.*
- *Tell us about achievements at home – every step of your child's development is important to us!*

Useful websites for fun learning activities include:

Year 6

Reading:

Reading continues to be a whole-school focus for us this year and it is essential for your child to be able to read for pleasure both in school and at home. Please ensure your child is reading a range of books, both fiction and non-fiction and talk to your child about their reading. Please feel free to send photographs of your child reading their favourite books.

Remember journals will be used in school so that the children can record what they are reading and complete activities to do with their book.

Please ensure absences are kept to a minimum this term and that you continue to support your child with their home learning. If there is ever a problem, try to let us know as soon as possible, so that we are able to help the best that we can!

Autumn Term
Year 6

Teachers: Mr Walch & Mr Percival

Writing>>>

This term the children will continue to use Talk for Writing resources to improve their skills with independent writing.

The children will also be looking at improving their handwriting across all subjects – not just English and some of the children will be trying to earn their pen licence!

Maths >>>

This term, the areas of maths we will be covering are:

- Place Value
- Addition
- Subtraction
- Multiplication
- Division
- Time

Please give your children as much chance to practise using time at home during the summer holidays!

PE >>>

This term in PE, the children in Year 6 will continue to take part in leadership and team building activities using the Commando Joe curriculum!

In addition to this, they will learn attacking and defending skills through playing netball.

Please talk to them about Chimp Corner and what they know about the Chimp Brain.

PSHE >>>

In PSHE this term, we will be learning about physical illness and the impact this may have, immunisation, marriage, healthy minds, mental well-being and how to provide support and care.

Throughout the term, we will continually discuss pupils' own well-being and encourage them to develop skills which will enable them to regulate their own emotions.

Please practise times tables at home. There are tasks on Google Classroom for your children to complete.

Art >>>

During this term we will be focusing on the work of artist Monet and trying to use this style of art to create our own artwork. We look forward to sharing some of this artwork on Dojo!

Feel free to research Monet beforehand.

Geography >>>

In Geography we will be learning all about Earthquakes – Where do they come from? Why do they happen? Where are they more likely to happen?

Science >>>

Science: Our Topics this term are:

Animals, including humans – here we will learn all about the various systems that allow our bodies to function.

Light – See what you can find out over the summer ready for this topic.

Music >>>

In Music, pupils will develop their understanding of rhythm and pitch from Charanga. These skills will be based around a range of songs.

*Pupils can also access Charanga from home.

Computing >>>

Our computing lessons will focus on teaching the children how to stay safe online and about blogging. We will continue to build on their skills about using remote learning platforms such as Google Classroom.
