

Working on Google Classroom from a tablet device

To use all the features of the **Classroom app**, you need **Google Docs, Sheets, and Slides**. If they aren't already on your device, you can get them from the Google Play Store (Android) or App Store (iOS).

Required:

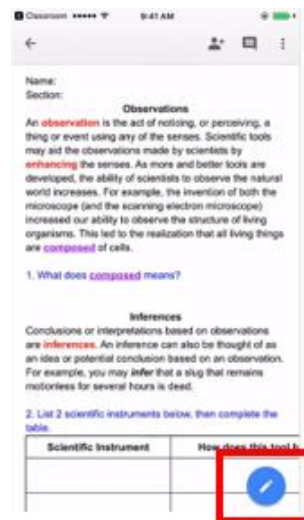

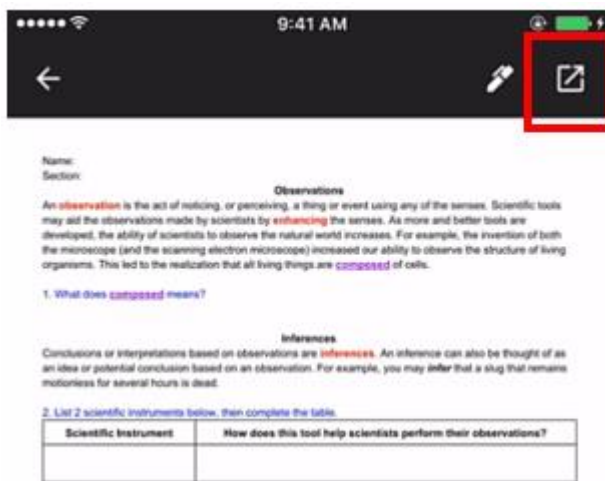

You may need to sign into your Aspire Google Account on each app.

Completing work:

First open Google Classroom and find a piece of work that has been set for you. Open the file with the work and you will be able to view.

To **edit** and **complete** work, you must press the square arrow button in the top right corner. This will open the work in either docs, sheets or slides (depending on the file). Once the app opens you can then press the blue pen to start editing the document.

When you have completed your work, go back to the **classroom app** and select **TURN IN**.
