

Using Food Guidance

Blessed John Duckett School is a Catholic School and God's love is at the centre of our community.

We experience prayer and worship together, share and recognise pupils' understanding and deepening of the Christian faith.

By working together, we strive to meet the spiritual, pastoral and academic needs of our children and community.

We demonstrate our love by caring for God's world and the diverse people in it.

We aim for respect, fairness and justice in all we do.

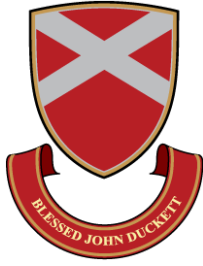

Policy agreed by Staff Summer Term 2020

Signed *Mrs S. McQuiggin* Headteacher

Agreed by Governors Summer Term 2020

Signed *Mrs E. McGurk* Chair of Governors

To be reviewed Summer Term 2022

Blessed John Duckett RC Primary School

Using Food Guidance

- Classrooms should have clean and safe working areas for all food work. This should be established before food work commences. All surfaces must be wiped down with 'dettox' or equivalent.
- Special clothing i.e., PVC aprons must be worn by all those taking part in food work and these must be washed and hung up after use.
- Equipment used should be in good condition and it must be cleaned thoroughly and stored safely and hygienically after use. Remove any damaged equipment from use and return to D&T Subject Lead.
- Perishable food will be purchased as required and stored in the staffroom refrigerator/cupboard or cooler bag. There should be no long term storage of food.
- Hygienic systems should be set up. Consider the washing of hands prior to work, washing up, cleaning away, cleaning of tea towels/dish cloths and tasting and disposal of food.
- Every teacher should be aware of the location of the first aid box and who in the school is responsible for first aid.
- Ensure those who are undertaking food work tie long hair back, wash their hands after using the toilet or blowing their nose, do not allow them to sneeze or cough over the food [if a child is ill wait until they are well before they do the work].
