Which Animals live in our World?

Children will be able to...

- ⇒ Talk about what happens on a farm and the animals that live there
- ⇒ Explain why the farmer grows crops and how this helps us
- ⇒ Know animals that live in our country
- ⇒ Know animals that live in different countries and be able to compare and contrast them
- ⇒ Talk about animals that live in water and the ocean and how they have adapted to the water
- ⇒ Know how to protect our animals and help the environment

As part of our unit of work we will be learning about different animals that live around the world. We will start by learning about the farm and animals that live there. We will explore animals that are native to our country and look at animals from around the world. To end our topic we will learn about the ocean and how we can protect animals.

Key questions:

Which animals live on a farm?

How do animals adapt to their habitats?

Which animals live in water and why?

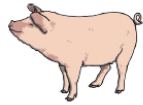

How can we protect our environment?
