

What should I already know?

- I can talk about the five sense,
- I can name different animals and some key features.

Key Vocabulary

Mammals	Mammals are animals that breathe air, grow hair or fur and feed on their mother’s milk as a baby
Amphibians	Amphibians live in the water as babies and on land as they grow older. They have smooth, slimy skin.
Fish	Fish live and breathe under water. They have scaly skin, fins to help them swim and they breathe through gills.
Reptiles	All reptiles breathe air. They have scales on their skin.
Birds	All birds have a beak, two legs, feathers and wings.

Key Knowledge

Carnivores eat meat and other animals.

Herbivores eat plants, grass, fruit and vegetables.

Omnivores eat both plants and animals.

Key Knowledge

Mammals

human

mouse

dog

cow

Birds

penguin

chicken

flamingo

robin

Fish

goldfish

tuna

shark

eel

Reptiles

snake

tortoise

lizard

alligator

Amphibians

frog

toad

newt

salamander

Post Assessment – Science – Animals including Humans

Label the pictures. Then, circle the reptiles in green, fish in blue, amphibians in yellow, mammals in red and birds in orange.

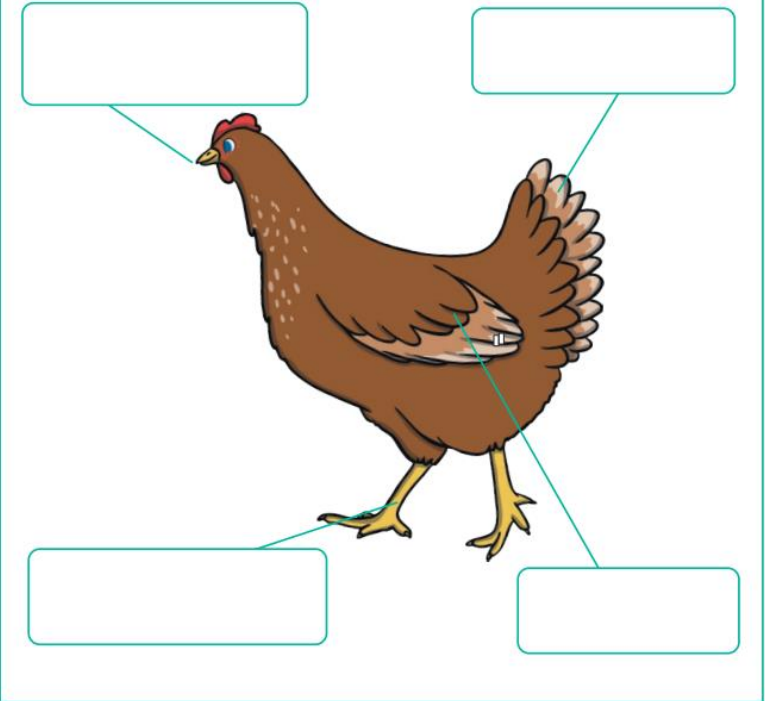

shark goldfish dog human alligator robin
penguin frog snake newt

What features does a chicken have?

Label the chicken.

beak feathers leg wing

What does a herbivore eat?
(List all the things you know)

A shark is a carnivore.

True or false
