Section 1 - General Statement

This policy statement supplements the health and safety policies which have been written by Bolton Metropolitan Council and Children Services Departments. The general aims of these policy statements are accepted and the arrangements set out below are designed to implement the general aims of Lever Park School. The Local Governing Body (LGB)/Headteacher recognises its responsibility to the health, safety and welfare of all staff, pupils and other persons visiting the school premises.

It is the policy of the LGB/ Headteacher, so far as is reasonably practicable:

- To maintain all areas under the control of the Governors and Headteacher in a condition that is safe and without risk to health;
- To establish and maintain a safe and healthy environment throughout the school;
- To establish and maintain safe working procedures among staff and pupils;
- To ensure that risk assessments are carried out by competent staff;
- To consult with employees on matters affecting their health and safety;
- To provide and maintain safe plant and equipment;
- To provide and maintain means of access to and egress from that place of work that are safe and without risk;
- To make arrangements for ensuring safety and absence of risks to health in connection with the use, handling, storage and transport of articles and substances;
- To ensure the provision of sufficient information, instruction and supervision to enable all employees and pupils to avoid hazards and contribute positively to their own health and safety and to ensure that they have access to health and safety training as appropriate or as and when provided;
- To prevent accidents and cases of work related ill health;
- To provide and maintain safe, healthy and adequate welfare facilities;

This policy will be reviewed on a regular basis, by the Headteacher and the Governors.

Section 2 - School Responsibilities

Headteacher and Governors

The Headteacher is responsible for the day-to-day Health and Safety management of school and all staff directly employed by the school. This responsibility will include ensuring that staff are aware of the safety rules and procedures which apply and also that they have access to detailed and specific regulations affecting their work. The Headteacher must also be aware of the arrangements governing visits and general contractors whilst on the school premises.

Headteacher/LGB roles

- Monitor the effectiveness of the safety policy;
- Make arrangements to ensure that all staff employed by the school, and all other persons working on the premises, are aware of all policies, risk assessments and all other relevant health and safety information;
- Understand Headteachers' and governors' responsibilities under the Health and Safety at Work Act, in relation to the roles and responsibilities of BMBC;
- Ensure that staff are aware of and seek advice in the event of an unusual situation which is likely to be a health and safety hazard;
- Make arrangements and implement the Local Authority's accident reporting procedure and ensure that staff are aware of the system;
- Ensure accidents are reported and investigated where necessary, and ensure control measures are implemented;
- Develop and maintain safe working practices;
- Ensure that all staff are aware of the first aid arrangements and first aiders;
- Ensure the implementation of procedures in the event of fire and ensure that all staff are aware of their roles and responsibilities;
- Provide suitable induction training for all new staff;
- Identify health and safety training needs;
- Ensure all structural defects in contracted schools are reported to the Authority;
- Ensure staff have an awareness of relevant health and safety legislation and their responsibilities as employees;
- Where personal protective equipment is identified as necessary, ensure it is provided and maintained;
- Ensure there are suitable provisions for contractors working on site;
- Understand the organisation, role and powers of Health and Safety Executive Inspectors;
- Recognise that the policy, risk assessments and practices are not static, and ensure that the schools health and safety policies and procedures are updated and amended where necessary.

Employees

The Health and Safety at Work Act 1974 states -"It shall be the duty of every employee whilst at work -

- (a) to take reasonable care for the health and safety of himself and of any other persons who may be affected by his acts or omissions at work: and
- (b) as regards any duty or requirement imposed on his employer or any other person by or under any of the relevant statutory provisions, to co-operate with him so far as it is necessary to enable that duty or requirement to be performed or complied with".

The Act also states "No person shall intentionally or recklessly interfere with or misuse anything provided in the interest of health, safety or welfare in pursuance of any of the relevant statutory provisions".

All employees:

- have a general responsibility for the application of the Authority's Safety Policy, and any School Policy, to their own department or area of work and are directly responsible to the Head for the application of existing safety measures and procedures within that department/area of work. Advice or instructions given by the Authority and the Head, including the relevant parts of this statement, shall be observed;
- shall, where necessary, establish and maintain safe working procedures including arrangements for ensuring, as far as is reasonably practicable, safety and absence or risk to health in connection with the use, handling storage and transport of articles and substances, (e.g. chemicals, boiling water, duplicating fluid, guillotines); they should also refer to documents produced for these products under the COSHH Regulations;
- shall resolve any health and safety problems any member of staff may refer to them and refer to the Head any of these problems for which they cannot achieve a satisfactory solution within the resources available to them;
- shall carry out a regular safety inspection of the activities for which they are responsible and, where necessary, submit a report to the Head;
- shall ensure, as far as is reasonably practicable, the provision of sufficient information, instruction, training and supervision to enable other employees and pupils to avoid hazards and contribute positively to their own safety and health at work;
- shall, where appropriate, seek the advice and guidance of the relevant Adviser or Officer of the Authority;
- shall propose to the Head requirements for safety equipment and on additions or improvements to plant, tools, equipment or machinery which are dangerous or potentially so.

It is recognised by the Trade Union organisations that the disciplinary procedure would be relevant in circumstances where employees choose to disregard these responsibilities.

Class Teachers and Learning Mentors

The class teacher is responsible for the safety of pupils whilst in classrooms, workshops and laboratories. This has been a statutory duty since 1987.

Where class teachers or learning mentors have concerns regarding safety issues for example class sizes, condition of equipment etc. they should discuss the problems with the Headteacher or Subject Leads before the lesson. Class Teachers and Learning Mentors should:

- Liaise with and recommend to the Subject Leads or Headteacher any safety issues and hazards such as class sizes, condition of equipment and also recommend additions and discuss improvements that can be implemented.
- ensure that before the lesson, by carrying out a risk assessment, that all protective clothing, guards, screens, etc. plus any special safety procedures are available and will be used;
- they personally should follow safe procedures and working practices;
- know the various safety procedures in their teaching areas including the location of any safety equipment, they should ensure that all the procedures are followed:
- control and supervise the pupils and ensure that safety rules and protective equipment are followed and used:
- ensure that safety instructions are clear and understood and check frequently that they are being followed:

Caretakers and Site Managers

Caretakers and site managers are key members of the school staff in that they are often the first person to notice health and safety hazards and are, in a large number of schools, the 'contact person' for reporting faults and liaising with contractors on site.

Their role within the schools safety arrangements should be clearly defined and **all** staff made aware of this role.

Caretakers should follow the health and safety and methods of working detailed in the Section 3 of this health and safety manual.

First Aiders

All schools must have at least one First Aider who can provide trained support in the event of an accident or illness to any employee or non-employee. Where the risk of injury is identified as significant, such as during PE lessons and within DT Workshops and Science labs, access to a First Aider and first aid equipment must be readily available (including provision of a wash basin or sterile water).

Pupils

Pupils are expected to:

- exercise personal responsibility for the safety of self and class-mates;
- wear the correct clothing consistent with safety and/or hygiene
- follow all the safety rules of the school and in particular the instructions of teaching staff given in an emergency;
- only use, and not wilfully misuse, neglect or interfere with things provided for his/her safety.

NB: It is essential that all pupils and parents are made aware of the requirements of this section.

Visitors

The Health and Safety at Work Act, 1974 imposes a general duty of care on most people associated with work activities. Everyone employed in educational establishments is protected by the Act and employers have an obligation to ensure, as far as is reasonably practicable, that persons NOT EMPLOYED by them who may be affected by their activities are not exposed by their actions to health or safety risks within the school premises. (Health and Safety at work Act, 1974 Section 3.)

Visitors should report to the Headteacher or Office on arrival at the school, they should be required to observe the safety rules of the school, in particular parents helping out in school should be made aware of the health and safety arrangements applicable to them through the teacher to whom they are assigned, and should not be asked to carry out tasks for which they are not 'competent', trained or authorised for.

In addition the 'Occupiers Liability Act 1957' introduced a 'common duty of care' which an occupier owes to all visitors other than trespassers. This duty required him/her to see that visitors were reasonably safe in using the premises for the purpose for which they were invited, or permitted to be there. In 1984 the Occupiers Liability Act was updated and occupiers must also take reasonable care to see that trespassers do not suffer personal injury whilst on the premises.

Contractors

Contractors should report to the Headteacher or Office on arrival at the school and outside contractors working on educational premises are required to ensure safe working practices by their employers under the provision of the Health and Safety at Work Act and must pay due regard to the safety of all persons using those premises in accordance with Section 3 and 4 of the Health and Safety at Work Act. They should also inform the school of any hazardous operations they intend to carry out and liaise with the appropriate person on site regarding this work. They should also have available COSHH assessments for any substances they intend to use.

In instances where the contractor creates hazardous conditions and refuses to eliminate them the Head or Principal must take actions as are necessary to prevent persons in his/her care from risk of injury and inform Corporate Resources, or were the work has not been procured through Corporate Resources they should speak to their planning officer. For further information please refer to See Section 3 of this manual - Contractors in Schools.
