

## Park School, Bolton Impact Trust PSHE Curriculum

### Rationale

As a Trust, we believe that a Personal, Social, Health and Economic (PSHE) education is incredibly important because it helps pupils to develop the knowledge, skills and attributes they need to manage their lives, now and in the future. We want all of our pupils to be equipped to navigate their way through the stresses, pressures and influences on their lives and to know how to stay healthy and safe. We will help them to develop their emotional literacy and positive mental health, to find their own voice and to have autonomy in their life and in their choices. Our pupils will be shown how to transform their potential into long-lasting success both in their personal and working lives.

### Knowledge

We ensure that throughout the PSHE curriculum pupils acquire the key knowledge required to:

- Keep themselves healthy
- Keep themselves safe
- Take care of their mental health
- Communicate their feelings
- Make well-informed financial decisions
- Be successful in their chosen career

### Character

We ensure that pupils develop their own character attributes by teaching them how to take good care of themselves, to be discerning in their relationships and of the influences on them. We teach pupils to know their own worth, to be their authentic selves and to respect others. To build skills such as reliance, determination, kindness, tolerance and empathy.

### Creativity

We ensure that pupils can respond to their learning and express their thoughts and feelings in creative ways. We encourage them to find their voice and to be confident to be themselves.

### Innovative Thinking

We inspire pupils to think innovatively, to problem-solve and to learn to make well-informed decisions that are not heavily influenced by others. We encourage pupils to become discerning and autonomous in their thinking, to 'read between the lines' and to be confident in their own opinions.

## Transform

We teach pupils to transform the essential knowledge and skills that they are taught in the PSHE curriculum into long-lasting success in the world of further study and work. We ensure that pupils understand what it is to be human and will develop key characteristics like empathy, tolerance and respect for other people, their cultures and beliefs.

## Curriculum Design

The PSHE curriculum for Bolton Impact Trust is based upon the Jigsaw PSHE program which is a mindful approach to health and well-being, and brings together Personal, Social, health and Economic Education, emotional literacy, social skills, and mental health and resilience development in a scheme of learning. It is compliant with the statutory RSHE requirements (England, DfE, 2019) and is carefully planned and sequenced so that knowledge builds upon prior knowledge and as pupils move through the academic year and the various Knowledge Blocks, knowledge and understanding is deepened and regularly revisited.

Pupils who leave us to return to mainstream are able to re-engage with the PSHE curriculum there because we do not narrow their offer when they are with us.

The PSHE curriculum is also designed to be flexible and to respond to the needs of the pupils. The PSHE lead liaises closely with the DSL and if a particular issue arises in a setting, staff are able to respond to that issue through the PSHE curriculum if the Leadership team feels that this is necessary.

The PSHE curriculum is organised into six key topics for each half term-

**Being me in my world** – Pupils in each Knowledge Block will consider how they fit into the world, how the world affects their identity and what control they have over this. They will also explore the online world and how this affects their identity and what they can control in the virtual world.

**Celebrating Difference** - Pupils in each Knowledge Block will consider how different we all are from one another and think about whether differences are a good or bad thing. They will look at inequality and whether difference results in inequality.

**Dreams and goals** - Pupils in each Knowledge Block will look at how their choices affect their dreams and goals and what autonomy they have in securing those ambitions. They will explore what success means to them and how physical and mental health play a significant part in achieving their dreams and goals.

**Healthy Me** – Pupils in each Knowledge Block will learn to take responsibility for their physical and mental health. They will understand what keeps them healthy and they will understand how substances can affect both mental and physical health.

**Relationships** - Pupils in each Knowledge Block will learn the differences between healthy and unhealthy relationships.

**Changing Me** - Pupils in each Knowledge Block will learn to deal with the changes that they are experiencing in all aspects of their lives. They will explore how they feel about themselves as they change and move towards adulthood and what they need in order to be happy and fulfilled.

At Park school, PSHE is taught in small **groups** of up to 8 pupils. This gives our students a safe and nurturing environment in which to learn about potentially sensitive topics such as mental health, online safety and relationships. Students may wish to speak to a member of staff about a topic being covered during the lesson, or need additional support in managing their emotions, so the role of the Learning Mentor is particularly important in PSHE lessons. Our students may have direct experience of these issues, and staff delivering PSHE at Park School are given **additional training** to support their delivery, with a clear focus on Safeguarding. Park School staff **CPD** has recently included training on peer-on-peer abuse, sexual violence and sexual harassment, modern-slavery and child criminal and sexual-exploitation. This training is continually refreshed so that staff delivering PSHE stay up to date with the National Curriculum and any changes in legislation.

The core PSHE offer at Park School consists of one timetabled 45 minute PSHE lesson each week. In addition, there are opportunities for teacher-led discussion of key themes during form time, as well as through the wider curriculum; particularly in science. As well as giving students the opportunity to consolidate their PSHE learning, this also allows staff to support and advise our more vulnerable students, or those with **SEN**, with areas of particular concern that arise through the school year. For example, staff may become aware of inappropriate use of mobile devices or social media, which needs to be urgently addressed. During the summer months, students may be advised on water safety and keeping themselves safe outdoors. Form time discussion in Park School is also used to facilitate **Pupil Voice**, giving students the opportunity to express concerns, or request additional advice on matters relating to PSHE. The Pupil Voice would be addressed in PSHE lessons as well as contributing to PSHE curriculum planning.

At Park School, there is a **cross curricular** approach to PSHE delivery. In science, students are taught about healthy lifestyles, the importance of a balanced diet and regular exercise, and the effects of drugs on health. Students further develop their knowledge of immunisation, vaccination, use of antibiotics, ethics of drug testing as well as the ethical and **spiritual** arguments related to organ transplants. Consideration is given to the cultural and **spiritual** background of our young people when delivering the PSHE curriculum. There are opportunities to address certain elements in smaller groups, or 1:1 where appropriate, in order to respect cultural identities.

Students at Park School have the opportunity to complete **First Aid training**, including giving CPR, which is an element of the 'Healthy Me' PSHE strand. Students continue their PSHE learning **outside the classroom**, with recent school visits to the Octagon theatre, Bolton Museum, Overdale Cemetery, Horwich Heritage and Manchester Art Gallery. Guest speakers have also supported the delivery of the PSHE curriculum, with recent presentations by Greater Manchester Police and the NHS health practitioners.

Students at Park School develop their **cultural capital** and appreciation of the arts, with timetabled art and music lessons delivered weekly to all students. Our young people develop their understanding of **careers** and working life during their weekly careers lessons. Students in years 10 & 11 are further supported in developing their career aspirations, constructing CV's and developing interview skills, with 1:1 careers guidance given by our on-site careers officer.

PSHE lessons are planned to promote pupils **reading** a range of non-fiction texts linked to key PSHE themes. These include leaflets on STIs about the effects of alcohol on the body, posters on healthy lifestyles, NSPCC adverts for preventing CSE, and text books exploring facts on a topic. There are also opportunities to make thematic links to fiction texts explored in English lessons. These explore issues such as race, slavery, gender identity and relationships. As well as developing oral and debating skills, students can share views and opinions they are developing; promoting confidence and engagement in their PSHE learning.

## The PSHE Curriculum Intent

At Park School we have broken the topics of the PSHE curriculum down into smaller blocks of knowledge. These blocks of knowledge build upon one another. They begin from a Foundation Block which is typically year 7 age-related knowledge and build all the way to Knowledge block 4 which is typically year 11 age related knowledge. Pupils joining our academy often have varied experience of the PSHE curriculum and may be extremely knowledgeable in certain areas and much less knowledgeable in others. In order to ensure that we build upon every pupils' existing knowledge pupils are assessed on their knowledge and understanding of each key theme at the beginning of every half term and then placed on the appropriate Knowledge Block in that key stage that builds from what they already know. This personalisation of the curriculum means that in some classrooms pupils may all be working on different knowledge blocks, even if those pupils are in the same year group. For some elements of the PSHE curriculum it is important that pupils are taught age-appropriate content. Staff are incredibly careful not to deliver sensitive content to pupils who are younger than the year group that it is normally taught to.

For some pupils, further personalisation of the PSHE curriculum is required because there is a need to deliver key knowledge that has been missed previously through non-engagement or attendance in school that is related to an issue that the young person is currently experiencing. Senior leaders and DSLs will ensure that this is addressed through key working or 1-1 sessions.

Key Stage 3	Being Me in My World	Celebrating Difference	Dreams and Goals	Healthy Me	Relationships	Changing Me
	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
<b>Foundation Knowledge Block</b>  (Typically year 7 age-related level)	Pupils will know: <ul style="list-style-type: none"> <li>• what influences them and their emotions</li> <li>• How to deal with differences &amp; conflict</li> <li>• What healthy friendships look like</li> <li>• How to keep themselves safe online</li> <li>• What the legislation is around online safety</li> </ul>	Pupils will know: <ul style="list-style-type: none"> <li>• What bullying, prejudice &amp; discrimination are</li> <li>• What stereotyping is</li> <li>• What the Equality Act is</li> <li>• How they can challenge influences, negative behaviour and attitudes</li> <li>• How to be assertive</li> </ul>	Pupils will know: <ul style="list-style-type: none"> <li>• What their goals are</li> <li>• How to make sensible financial decisions</li> <li>• How to overcome challenges and learn from mistakes</li> <li>• How to make sensible choices around substances, weapons and friendship groups</li> <li>• How to avoid exploitation</li> </ul>	Pupils will know: <ul style="list-style-type: none"> <li>• How to manage their mental health</li> <li>• How physical activity impacts upon their mental health</li> <li>• The effects of substances</li> <li>• The importance of nutrition and sleep</li> <li>• The importance of information on making health choices relating to vaccination and immunisation</li> </ul>	Pupils will know: <ul style="list-style-type: none"> <li>• What healthy relationships look like</li> <li>• What their rights and responsibilities are within relationships</li> </ul>	Pupils will know: <ul style="list-style-type: none"> <li>• What changes occur during puberty</li> <li>• How humans reproduce, including what IVF is</li> <li>• What FGM, breast flattening/ironing are</li> <li>• What the responsibilities of parenthood are</li> <li>• The different types of committed relationships</li> <li>• What self-esteem, and self-</li> </ul>

			<ul style="list-style-type: none"><li>• How to manage when things go wrong.</li></ul>			
--	--	--	---	--	--	--

The Journey Starts

# Curriculum Map- PSHE

## Being Me in My World

Pupils will know what influences them and their emotions. What healthy friendships look like and how to keep themselves safe online.

## Celebrating Differences

Pupils will know what prejudice, discrimination and stereotypes are. They will know how they can be assertive and how to challenge influences, negative behavior and attitudes. Pupils will know what The Equality Act is and what it protects as well as acknowledging other people's attitudes and values.

Foundation Knowledge Block

Autumn 1

Autumn 2

## Dreams and Goals

Pupils will identify their dreams and goals and will know the skills that may benefit these in the future. They will know how to overcome setbacks and mistakes (realising that dreams and goals may change). Pupils will know how to make sensible choices around friendships, substances and weapons. They will know some emergency first aid.

These bricks indicate when pupils' knowledge begins to build upon prior knowledge and connections are made

Spring 2

Spring 1

## Relationships

Pupils will know the characteristics and benefits of supportive, positive and strong relationships. They will know what their rights and responsibilities are within relationships and what consent means.

Summer 1

## Healthy Me

Pupils will know to help themselves when they feel stressed/ emotional and know how to deal with their triggers. Pupils will understand the role of healthy lifestyle choices, how substances affect the body and the role of vaccinations.

Summer 2

## Changing Me

Pupils will know and understand the changes that happen in puberty and where to access help. They will know how this relates to how a baby is conceived naturally and via other avenues (IVF). Pupils will know how healthy family relationships and effective parenting relate and the effect that the media can have on a person's self esteem/ body image.

# Curriculum Map- PSHE

## Being Me in My World

Pupils will know how they view themselves and others and what influences this. They will know how important respect is and managing expectations. They will know what marriage is and what protected characteristics are.

## Celebrating Differences

Pupils will know what it means to live in a diverse community and what injustice and equality exists in society. Pupils will know how to stand up to bullying and the different types of bullying that exist. They will learn about organ and blood donation.

## Dreams and Goals

Pupils will know what their long-term goals are and how to achieve them. They will know how to manage finances and how to take care of themselves online. They will know how to look after their own mental health.

## Relationships

These bricks indicate when pupils' knowledge begins to build upon prior knowledge and connections are made

Pupils will know the importance of having a positive relationship with themselves and what can affect this. They will know how to manage a range of relationships and what unhealthy relationships look like and what resources there are to support them.

## Healthy Me

Pupils will know the importance of long-term physical health and their own responsibilities around this. They will know the dangers of substances and the law in regards to their use. They will know how vaccinations and immunisations affect their health.

## Changing Me

Pupils will know about the types of intimate relationships that exist and the behaviours that exist in healthy relationships. They will know what pornography is and the dangers and risks associated with alcohol.

# Curriculum Map- PSHE

## Being Me in My World

Pupils will know that people have different perceptions about intimate relationships and how they can be exploited. They will know that risky behavior can be influenced by others and the problems that peer approval can cause. They will develop their knowledge on what influences their self-identity

## Celebrating Differences

Pupils will know about the Equality Act and what prejudice, discrimination and harassment are. They will know how language can be negative and what bullying in the work place is. They will know what the law says about bullying and hate crimes.

Knowledge Block 2

Autumn 1

Autumn 2

These bricks indicate when pupils' knowledge begins to build upon prior knowledge and connections are made

## Dreams and Goals

Pupils will know their personal strengths and how their option choices fit into their career plans. They will know how to plan smartly. They will know how their online presence affects their employability. Pupils will know the difference between physical and mental health, what are some mental health issues and all the things that can negatively influence a person's mental health.

## Relationships

Pupils will know what risks exist in intimate relationships and the importance of contraception and sexual health. They will know that sex and sexual relationships can be falsely portrayed in pornography and the media. They will also know what healthy relationships are and about power and control in relationships.

Spring 2

Spring 1

## Healthy Me

Pupils will know that there are misperceptions about young people's health choices. They will know all of the negative effects that some substances can have on their health and what the law says about these. They will also know what to do in an emergency situation including first aid, CPR and those involving substances.

Summer 1

Summer 2

## Changing Me

Pupils will know how to build resiliency and to manage some of the changes that they are experiencing. They will know some of the stigma around mental health and how to challenge it. They will know how a person's mental health can be affected and recognize their own triggers and what strategies are effective in helping their own mental health.

# Curriculum Map- PSHE

## Being Me in My World

Pupils will know their human rights living in the UK and the differences that exist for people living around the world. They will know about loss in relationships and risks to their personal safety. Pupils will know the impact of social media on their culture and identity and the risks and threats to online safety.

## Celebrating Differences

Pupils will know what the Equality Act is and what rights and responsibilities link with it in society and in the workplace. They will know the consequences that inequality has on individuals along with the benefits of living in a multicultural society.

Knowledge Block 3

These bricks indicate when pupils' knowledge begins to build upon prior knowledge and connections are made

## Dreams and Goals

Pupils will know the importance of healthy relationships and connections. The importance of work/life balance. They will know the importance of a healthy diet and how blood donation helps others. They will know the impact that debt and gambling has on their finances along with advertising influences. They will know what they need to do to be prepared for the world of work

## Relationships

Pupils will know the different types of long-term relationships, what is required to sustain them, the choices that have in relationships and what the risks are when ending a relationship. Pupils will know the impact that healthy relationships have on children and how to critically evaluate their own relationships. Pupils will also know the law around abusive relationships and how to analyse their own relationships.

## Healthy Me

Pupils will know some of the common threats to health and how they can look after themselves and some of the ways that they can check their own health. They will understand how to protect their mental health, how community action and volunteering can help it and some of the common mental health disorders. Pupils will know about the advanced medical techniques and the negative effects that misuse of medications and substances can have.

## Changing Me

Pupils will know that change in their family and society affects them and how to manage that change successfully, including the impact that it has on their future relationships. They will know that the media has an impact upon societal change and that change also affects self-esteem and mental health. Pupils will know that some people experience change in relation to their sexual identity and gender and will understand the reality and the myths around this.

# Curriculum Map- PSHE

## Being Me in My World

Pupils will know what becoming an adult means and the legislation that affects them. They will know the law around age limits, consent, marriage and civil partnerships.

Pupils will know why coercive control, sexual harassment and sexual violence in relationships are unacceptable and the legal consequences of such behaviour. Pupils will know the law on internet use and pornography, possession and supply of drugs, tobacco and other substances and the legal consequences of breaching the Equality Act.

Pupils will know the correct steps to take in a range of emergency situations

## Dreams and Goals

How to take care of their physical and mental health and how to use solution focused thinking. They will know what skills they need to achieve their career and financial goals and be knowledgeable about how to manage their finances and to avoid debt. They will know their long-term goals in relation to relationships and the choices they have in those.

They will know the challenges that parenting brings and what being a successful parent looks like. They will know what barriers may exist to their dreams and goals and how to manage when things go wrong.

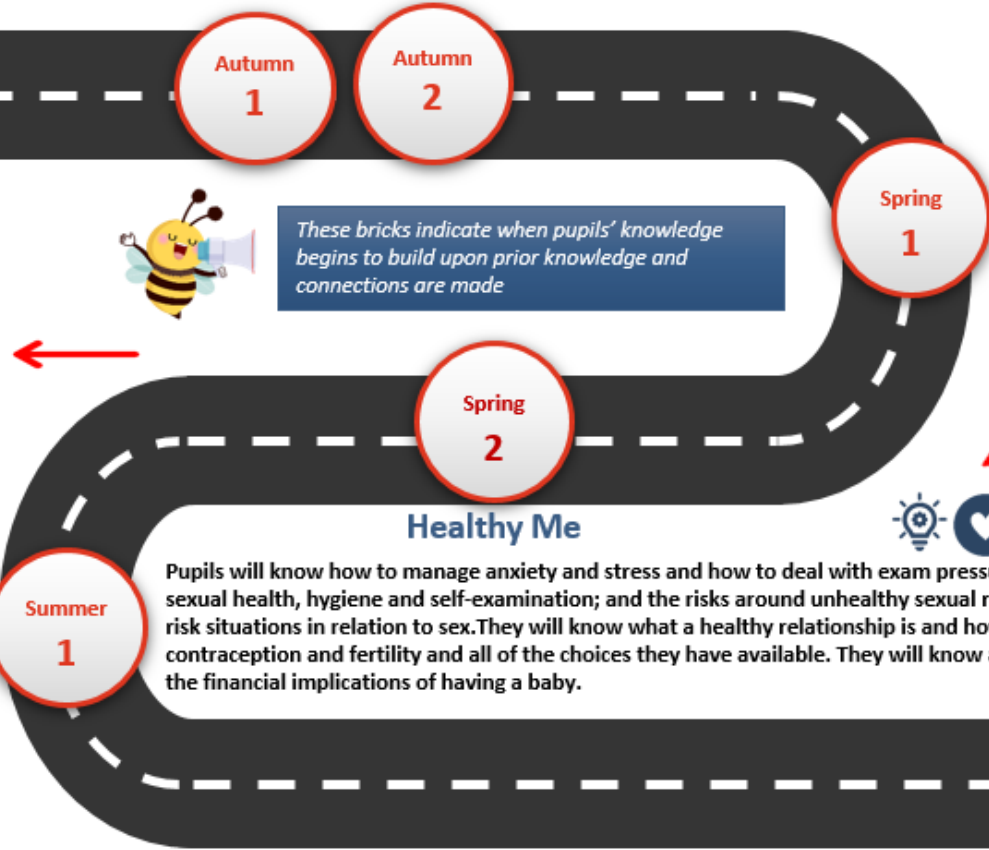

## Relationships

Pupils will know the different stages of intimate relationships, how to deal with unhealthy relationships and how to protect their sexual health. Pupils will know about the spectrum of gender and sexuality and that LGBT+ people have rights and protection under the Equality Act. Pupils will know why honour-based violence and forced marriage is unacceptable and illegal and what FGM and breast ironing is and why it is illegal.

Pupils will know what hate crimes are and how to report them.

Autumn 1

Autumn 2

Spring 1

Spring 2

Summer 1

These bricks indicate when pupils' knowledge begins to build upon prior knowledge and connections are made

## Healthy Me

Pupils will know how to manage anxiety and stress and how to deal with exam pressure. They will know the importance of sexual health, hygiene and self-examination; and the risks around unhealthy sexual relationships including how to avoid high risk situations in relation to sex. They will know what a healthy relationship is and how sex fits into this. They will know about contraception and fertility and all of the choices they have available. They will know about pregnancy and their choices including the financial implications of having a baby.

## Assessment and Progress in PSHE

For every unit of work mid-term plans set out the new knowledge and skills that pupils should acquire. During the term teachers use a range of formative and summative assessments to systematically check pupils' understanding and to establish what new knowledge and skills they have acquired. The Trust has established its own level descriptors for PSHE in all of its secondary provisions in conjunction with the Jigsaw PSHE online programme. Staff use pupils' work in books, along with summative and formative assessments to inform their judgement of progress every term. We ask teachers to attribute the level descriptor that is a 'best fit' for each pupil from the Knowledge Block that they have studied.

Progress is judged using the criteria outlined in the table below:

Above Expected Progress	A pupil displays the majority of the knowledge and skills in the Exceeded Descriptor
Expected Progress	A pupil displays the majority of the knowledge and skills in the Expected Descriptor
Just Below	A pupil displays the majority of the knowledge and skills in the Just Below Descriptor
Not Met	A pupil does not demonstrate the majority of the knowledge and skills in the Just Below Descriptor

### BIT Level Descriptors for PSHE

		Being Me in My World	Celebrating Difference	Dreams and Goals	Healthy Me	Relationships	Changing Me
Knowledge Block 4	Exceeded	Pupils can evaluate and discuss legal and moral constraints on people's behaviour, relationships and lifestyle and relate these to potential consequences for individuals and society. They can justify their own views regarding what constitutes healthy and safe behaviours and	Pupils can discern between what is legally allowed or prohibited and what people believe to be morally or culturally permissible, and can evaluate a range of arguments relating to inclusion, equality and human rights. They can empathise with people	

		<p>behavioural, relationship and lifestyle issues, giving informed and reasoned advice to help them recognise and manage risk, signposting them to appropriate sources of information and support.</p>		<p>work together for mutual benefit. They can adopt a reflective and self-aware approach to achieving their dreams and goals and suggest ways to support those who might struggle in terms of career skills, family planning, financial management and healthy living.</p>	<p>relationships, whilst recognising that people have different views and expectations.</p>	<p>who have different views to their own about sex, sexual relationships and sexual identity, whilst being able to stand up for what they believe to be right and within the law. They know how they can seek or recommend sources of advice and support in issues of equalities in relationships.</p>	
	<p>Expected</p>	<p>Pupils can explain their rights and responsibilities in the context of a range of behaviours and situations that may arise as they move into adulthood. They know how to handle emergency situations responsibly and effectively. They can assess risk in a range of situations that they may encounter as they move into adulthood, and can make informed decisions and choices that will have a positive impact on their life. They can assess an emergency situation, taking into account the emotional state of those involved.</p>		<p>Pupils can explain how potential stresses in all aspects of their life might seem overwhelming and offer detailed strategies to manage a more balanced lifestyle personally, socially, financially and in terms of health. They feel confident that their skills and relationships will help them to overcome barriers to their dreams and goals and get through stressful, challenging times.</p>	<p>Pupils can explain how to avoid unwanted consequences in a sexual relationship, and how physical and emotional health are closely linked to responsible choices and mutual respect. They can explain where to go for accurate information, advice and support concerning sexual and reproductive health. They can confidently express my feelings and views about potential physical or emotional harm in relationships and say how they can access support.</p>	<p>Pupils can describe a range of ways in which gender identity can be experienced and expressed and explain what is most important in a relationship in terms of the well-being and needs of both parties. They can explain why equalities need to be protected and why some practices are not legal. They can apply their knowledge and understanding of the issues involved in close sexual relationships to choices and decisions in their own relationships. They can explain why respect is essential to developing a range of healthy relationships. They can suggest a range of ways to access support if they are</p>	

						concerned about a sexual relationship.	
	Just Below	Pupils can outline the legal and moral restrictions on their behaviour, relationships and lifestyle and give examples of what they are legally allowed to do or prevented from doing. They know some basic first aid, how to make someone safe and how to access appropriate help. They can distinguish between safe, risky, legal and illegal activities and what they need to do to keep themselves and others safe.		Pupils recognise that their future is more than just a career; it also involves family, social life, money and health. They can state some of their goals in these aspects of their life. They can state some of the potential barriers for each of these and suggest what they can do to overcome them. They can identify some of their personal strengths that can help them to overcome obstacles to them achieving their dreams and goals.	Pupils can recognise some key STIs and know about appropriate treatment for them. They can give some examples of behaviours that do not conform to a healthy sexual relationship. They know how to keep themselves and their partner physically and emotionally safe in a sexual relationship. They recognise that healthy relationships are built around mutual respect and choice.	Pupils recognise that people have different preferences regarding sexual relationships and that what is most important is mutual consent and respect. They can state why some culturally based practices such as FGM are unacceptable and illegal. They can tell you the difference between relationships in the media and those that happen in real life. They can understand different gender identities.	
Knowledge Block 3	Exceeded	Pupils can discern how best to access support with issues of rights and with emotional stress. They can evaluate online risk and the potential impact this can have on them. They can evaluate the extent to which their sense of freedom needs to be tempered by responsibility to themselves and others. They can evaluate the extent to which their online identity is affected	Pupils can evaluate the extent to which inequality is based on perceptions of 'difference' and assess the effectiveness of different solutions to a range of local, national and global inequalities. They can recognise which groups are likely to face barriers to health, wellbeing and equality and can recommend which campaigns for equality are likely to be most effective.	Pupils can explain what will help them to achieve their goals and how their dreams are important in raising their aspirations and sense of purpose. They can set challenging goals for their future and know how their health, relationship and lifestyle choices can help them to achieve these.	Pupils can evaluate the lifestyle choices available to them and how they might have an impact on their physical, sexual and emotional health and sense of well-being. They can discuss different ideas and perspectives on physical, sexual and emotional health and justify their own opinions based on evidence. They can explain why the health choices people make are	Pupils can critically evaluate the importance of certain emotions in a range of relationships and assess the importance of 'love', appropriately understood, in their own relationships. They can discern between genuine and superficial relationships and when each is appropriate. They feel confident to support a friend who is experiencing difficulties in a relationship, giving sensitive and sensible	Pupils can explain the links between social change and people's attitudes and ways of life. They can explain what influences our decisions and identify what kind of decision maker they are. They can evaluate the impact of change in a range of contexts on society and on individuals and express a reasoned and informed opinion about the value of those

		by their online behaviour.			sometimes different from their reasoned opinions.	advice and signposting them to appropriate external advice and support. They can solve multifaceted relationship dilemmas and offer a range of different strategies that could be used.	changes in people's lives.
	Expected	Pupils can explain why the Human Rights Act is important. Using their understanding of 'etiquette' and the law, they can explain their responsibilities regarding their own internet behaviour. They can recognise how their feelings can affect their behaviour both on and offline. They can identify potential risks to their safety on social media and explain how to engage safely with it.	Pupils can explain what is meant by 'balance of power' in personal and public relations and give examples of the impact abuse of power can have in the lives of individuals and groups. They are able to identify the links between inequality and mental and physical health and suggest strategies to improve outcomes for different groups.	Pupils can explain how different lifestyle choices (e.g. health, altruism) can have both positive and negative consequences for their future, and the importance of a balanced approach to life. They recognise the importance of other people and groups in helping them to achieve their goals and raise their aspirations.	Pupils can examine and explain factors that can negatively affect their health and wellbeing, both physically and mentally. They can explain how a range of preventative measures can have a positive impact on their life and reduce the risks of physical, sexual and mental illness in the future. They can assess the challenges to healthy living that could confront them now, and in the future, and explain how these could be met most effectively so that they are better able to be responsible for their own physical, sexual and emotional health.	Pupils can explain why relationships are important in our lives and how they can affect us positively and negatively. They can suggest reasons why some relationships break down and what they can do if this happens to them. They can compare the differences between unhealthy and healthy relationships. They can explain the emotional investment in relationships and what the effect might be (behaviourally and emotionally) when a relationship becomes unhealthy or ends. They recognise what helps to build positive relationships and can identify behaviours and attitudes that can turn them into negative experiences. They can suggest ways to improve aspects of an unhealthy	Pupils can explain factors that influence change in a range of contexts and how change can affect the people involved, especially young people. They can discuss gender issues thoughtfully in an informed way and appreciate the complexity of the issue. They can apply their understanding of change management to the emotional and physical changes that occur in adolescence and use this to suggest strategies for coping with change.

						relationship and how to move on from difficult experiences.	
	Just Below	Pupils can say what the Human Rights Act means. They can state the stages of grief. They can state the positive and negative effects social media can have and suggest what people can do to keep themselves safe online. They are aware that rights and responsibilities can differ around the world. They know how to access support and advice safely online.	Pupils can explain the Equality Act and how it protects a range of groups in society from abuses of power and discrimination. They can recognise inequality in a range of personal and societal contexts.	Pupils can state aspects of their relationships and life that help or hinder them in achieving their goals. They can identify the difference between realistic and unrealistic dreams and goals. They know what resilience is and can give examples of how they can build their own and others' resilience.	Pupils can state some of the potential threats to their health both now and in the future and they are aware of the link between mental and physical wellbeing. They can describe how to access support and adopt a range of activities that will improve their physical, sexual and emotional health.	Pupils can list a range of different types of relationship and group them in order of importance, length and intimacy. They can state what makes a positive relationship and give examples. They can also state what makes a relationship inappropriate and apply this to different types of relationship. They describe something they would do to mend or end a broken relationship. They can tell you how they can access support if a relationship problem is worrying them.	Pupils recognise changes they have gone through and the effect they have had on themselves and those close to them. They can list ways society has changed recently and give some reasons for these changes. They can describe issues concerning gender identity. They can list sources of advice and support for young people. They recognise that change is inevitable and give examples of how they have managed change. They can list some strategies that help manage change.
Knowledge Block 2	Exceeded	Pupils can discern the positive influences groups can have on them and the potential risks that can arise from negative pressures and influences, giving examples of ways to respond positively to these influences and how they could support others in doing so. They can explain, with examples, how a person's positive or	Pupils can argue their own viewpoints to challenge bullying, discrimination, prejudice and inequality, supporting their ideas with a range of evidence and justification. They can evaluate the effectiveness of different strategies they can use to protect themselves and others from	Pupils can discern between helpful feedback and negative criticism and explain how each can affect a person's mental health and their ability to achieve their goals. They can evaluate their own planning and personal strategies for overcoming obstacles or problems when trying to achieve their goals. They can evaluate the	Pupils can explain a range of measures that they need to take to support their physical and mental health. They can debate why some people choose to make unhealthy/ unsafe lifestyle choices and how this may have consequences for their health and well-being, and that of others. They can explain why being confident and discerning	Pupils can discuss, with examples and justification, the health, legal and moral issues facing young people regarding sexual relationships and assess the potential consequences on their lives, health and wellbeing. They can evaluate people's options in a range of issues to do with sexual relationships, and	Pupils can evaluate the impact of certain life events on someone's mental health and relate this to the experiences of change in adolescence and how this can affect teenage mental health. They can assess the effectiveness of certain strategies to address the stress caused by change, and the best ways to access support and advice.

		negative self-identity can contribute to the choices they make, and suggest ways in which they can support friends who might be more vulnerable to negative influences.	prejudice, inequality and discrimination	effectiveness of strategies that promote a positive self-image and can also suggest ways of addressing mental health issues and how these strategies can help a person be better able to achieve their personal dreams and goals.	when making lifestyle choices is important and the range of pressures and influences that could be detrimental to these.	assess what is right for them in relation to the law, their personal values and the possible consequences of their actions and choices.	They can evaluate the potential impact of change on a person's life and health, and assess the effectiveness of different strategies for dealing with change and reducing the stress it can cause.
	Expected	Pupils can explain how groups can be both positive and negative influences and identify what they can do to ensure that they make positive choices to develop as who they are, rather than as who others want them to be. They can explain what some people do to avoid risky behaviours and why others find this difficult. They can explain strategies to resist pressure from others to behave in ways that make them feel uncomfortable and put themselves or others at risk of harm.	Using examples, pupils can explain why inequality and discrimination happen, what we can do to challenge them and why it is important to do so. They can explain the importance of language in conveying positive messages to others. They can explain why empathy, having an open mind and being able to personally reflect on their own attitudes and behaviour will assist them to protect themselves and others from discrimination and inequality.	Pupils can explain why their mental and physical health are important to realising their dreams and goals, and why having some non-material goals are important for self-esteem. They can show evidence of some SMART planning to support their life and learning and plan for any potential setbacks that could arise. They can suggest ways that people can develop a positive view of themselves and a more confident approach to their future.	Pupils can give evidence that shows the majority of young people make healthy and safe lifestyle choices. They can also explain some reasons why this may not be the perception of others in their school and wider community. They can express the confidence to make lifestyle decisions to keep themselves safe and physically and emotionally healthy. They can explain how to deal with emergency situations should they arise.	Pupils can explain how power or coercion could be used in online and offline relationships. They can explain why some young people choose to have unprotected sex and why, demonstrating good knowledge of the possible consequences. They can describe issues relating to pornography. They can reflect on their own values and how these contribute to their confidence in making informed, healthy and safe lifestyle choices. They know how someone can keep themselves safe in a sexual relationship and how to access support and advice	Pupils can explain what resilience is, how it helps us cope with change and what people can do to develop greater resilience. They can explain how change can be perceived as either negative or positive and suggest ways to deal with the negative and emphasise the positive aspects. They can reflect on the skills they need to develop to enhance their resilience and can recognise how to be more in control of the changes in their life and of their responses to change.
	Just Below	Pupils can state ways in which their identity and self-esteem can be	Pupils can give an example of prejudice and discrimination and	Pupils can list some attitudes and beliefs that may help them to	Pupils can say how substances and alcohol can affect decision-	Pupils explain why it is important to make informed choices when	Pupils can list ways in which change can affect their mental health and

		<p>influenced positively and negatively by their relationships and choices. They can give examples of risky behaviours and know how to access advice and support if they need to.</p>	<p>how this could lead to bullying. They can also give examples of positive and negative language and how this can impact on others. They can give you an example of when they have learnt about other people and it has changed their view of them and their behaviour towards them. They can give some examples of the consequences of bullying, prejudice and discrimination and suggest some ways they can protect themselves or others from these situations.</p>	<p>achieve their goals and those that might prevent them from doing so. They can show evidence of some SMART planning which could support their life and learning. They can tell you some of the ways they can manage their feelings when they face setbacks, and to help them move forward with their plans.</p>	<p>making and give examples of potential consequences if this were to happen. They can give examples of strategies that they can use to help them to make safe and healthy lifestyle choices when they are in situations that make this more difficult, and they know how to access support and advice.</p>	<p>considering having sex. They know that consent is a vital feature of any relationship. They can say what is and is not legal regarding sexual relationships and behaviour on social media. They can explain how they would challenge a person's behaviour if it made them feel uneasy or uncomfortable. They can say why consent is important in relationships. They know when they need to be assertive to keep themselves safe.</p>	<p>can state some things they can do to cope with change. They can describe some of the things they have learnt about themselves that will help them to manage change.</p>
<p>Knowledge Block 1</p>	<p>Exceeded</p>	<p>Pupils can draw on a range of evidence to support their arguments, they can explain why a person's identity is unique and complex and the range of influences that may affect it. They can explain why a person's identity may change over time and evidence their ideas. They can discuss their growing independence as a unique individual and relate this to the personal choices they make. They can also empathise with others who have different</p>	<p>Pupils can argue their own viewpoints to challenge injustice and inequality in relationships, the community and globally, supporting their ideas with a range of evidence and justification. They can evaluate the effectiveness of different things they could do to bring about a positive change in their life and that of others in a local, national and global context, challenging inequality and injustice.</p>	<p>Pupils can argue with a range of evidence and justification, why money can be a positive or negative influence in a person's life and how that could affect their personal goals. They can evaluate their own strategies for overcoming obstacles or problems when trying to achieve their goals and justify which strategies may be more or less successful. They can empathise with others who have different financial circumstances to their own and can put</p>	<p>Pupils can justify and debate the tension between personal choice and social responsibility for physical and emotional health and why in some circumstances this could be challenging. They can evaluate personal strategies that they could use to support their physical and emotional/mental health and give reasons why some may be more effective than others.</p>	<p>Pupils can evaluate issues of equality, power and coercion in relationships, distinguish how these might vary according to context and culture and justify their views on what makes a positive relationship. They can identify and assess their skills in building positive relationships and evaluate strategies that might help them to manage their relationships more effectively. They can apply this empathetically to other people to</p>	<p>Pupils can discuss the process of developing a deeper romantic relationship and how this differs from other types of intimate relationships. They can identify and assess a range of positive or negative behaviours and attitudes and their potential impact on the development of the relationship. They can distinguish physical and emotional attraction from sexual desire, and evaluate the potential negative impact of some behaviours on the</p>

		<p>influences on their identity and explain why this could negatively or positively influence their thoughts about them. They can use this to explain why it is important that they try to gain an accurate view of a person so that they respond to them as unique individuals themselves.</p>		<p>forward their own viewpoints about the moral issues surrounding money.</p>		<p>support them in their relationships</p>	<p>development of healthy and positive romantic relationships, suggesting how these can be resolved.</p>
	<p><b>Expected</b></p>	<p>Pupils can explain why a person's identity is complex and what may influence that. T can also explain why this may change over time. I recognise that the factors that influence people's identity can vary according to beliefs and culture. I can see and respect other people for who they are rather than what I assume they should be like. I accept and respect difference and what can influence this.</p>	<p>Pupils can argue effectively and assertively why social injustice and inequalities are unfair. They can provide personal examples of things they could do to challenge this and constructively improve their community, and how this can have a positive impact on their self-esteem. They can explain the benefits and challenges of living in a diverse society and what they can do to improve life for others as well as for themselves.</p>	<p>Pupils can explain why it is important that they learn to manage their finances as they get older and how this is important to some of their short-, medium and longer-term goals. They can suggest factors that might maximise or threaten their chances of achieving their dreams and goals, considering how these might change over time. They can justify their views about money and see different points of view that others may have. They can explain what they can do to ensure that their online presence does not interfere with them achieving my goals.</p>	<p>Pupils can explain a range of responsible choices that I need to make to support their physical and emotional well-being and how these are linked. They can discuss the impact, positive and negative, that different substances can have on a person's health and well-being, on vulnerable individuals and on society as a whole. They can explain how emotions are linked to thoughts and actions, which can lead to positive or negative lifestyle choices. They can suggest strategies that could be used to support their emotional/mental and physical health, including risk management, and</p>	<p>Pupils can explain how and why social and other media could influence their view of themselves and their relationships. They can discern between what is and is not appropriate in a relationship, giving examples, and how this can vary according to context. They can suggest ways that they can be more in control of my relationships and emotions and explain how this could be important in maintaining positive and stable relationships in the online world, as well as when they are offline.</p>	<p>Pupils can explain the difference between a crush and a deeper romantic relationship. They can explain the potential risks and impact pornography and alcohol can have on an intimate relationship. They can explain how to build a positive romantic relationship, what might prevent this and how someone can access support if they are concerned about a relationship.</p>

					explain why these could be effective.		
	Just Below	Pupils can give examples of things that can influence a person's identity. They can give some examples of things in their life that have influenced their personal identity. They recognise that their first impressions of others may not be accurate.	Pupils can give an example of social injustice and offer suggestions about what they could do to make a positive difference about it. This could be in a local, national or global context. They can give you some examples where they contributing to improving life for themselves and for others.	Pupils can give an example of one of their short-term goals, a medium-term goal and long-term goal, and suggest what they need to do and avoid doing if they are to achieve these. They can give one positive and one negative way in which money can influence their life and say why it is important that they learn to manage their spending. They recognise that choices and decisions they make now can have good or bad consequences on their future life and can state some positive things that they can do to achieve their goals.	Pupils can give examples of responsible choices that they can make to support their physical and emotional/mental health. They can give an example where a person's emotions could lead to their thoughts and behaviour damaging themselves or others. They can also suggest ways to access support and information so this is less likely to happen.	Pupils can say why relationships are important and describe different types of relationship, including their relationship with themselves, and how these can vary culturally and on social media. They can recognise different factors that contribute to a positive or negative relationship. They recognise some things that they can do to improve their ability to build positive relationships with themselves and others.	Pupils can state the basic facts of puberty and pregnancy and state some of the potential issues of growing up in the modern world, including potential abuse. They know how to access advice and support. They can describe physical and emotional attraction and suggest appropriate age-related behaviours in a close, romantic relationship.
Foundation Knowledge Block	Exceeded	Pupils can evaluate the importance of self-identity and belonging and how people relate differently to themselves and to others. They can explain how to maintain positive online relationships. They can discuss Their growing independence as a unique individual and what has shaped them. They can discuss how	Pupils can explain how stereotyping, prejudice and discrimination are linked and how they are influenced by a variety of factors, such as personal belief, the impact of the media and societal and cultural influences. They can give informed arguments on these issues to challenge prejudice and discrimination	Pupils can evaluate the significance of experiences, both positive and negative, for helping them to make better choices for their future. They can explain the impact their choices may have on their relationships, health and future. They can anticipate potential challenges and plan in advance strategies to	Pupils can explain the relationship between emotions and healthy/unhealthy life choices and how each has an effect on the other. They can evaluate strategies that people could use to help them stay happy and healthy and to reduce risk-taking behaviour. They can evaluate different views about how medicines	Pupils can explain the complexity of changing relationships and evaluate the attitudes, values and behaviours that contribute to building positive relationships. They can discern between what is and is not appropriate in different relationships and what people can do to build healthy, supportive and	Pupils can evaluate the impact and challenges of changes in adolescence and explain how young people can cope with these, by accessing appropriate advice and support. They are able to discern between those things that help to build their self-esteem and those which threaten it. They are aware of their emotions,

		<p>others may view them differently and have different expectations of them and justify which of these expectations are fair. They can evaluate the impact of online activity on their own and others' sense of self.</p>	<p>assertively. They can evaluate the effectiveness of different strategies that may support victims of prejudice and discrimination and suggest the possible outcomes.</p>	<p>help them achieve some of their dreams or goals. They I can evaluate these plans and suggest ways they might change and how they could be adapted as necessary. On the whole, they take responsibility for their choices and actions</p>	<p>and vaccines can be used to promote healthier lifestyles. They can justify their thinking about making responsible choices and managing the internal and external pressures that might influence them.
