

Youth Challenge, Bolton Impact Trust PSHE Curriculum

Rationale

At Youth Challenge, we recognise the incredibly important role that PSHE has to play for our students. Many of our students come to us having already been exposed to some form of adverse childhood experiences within their family life, whether this be bereavement, substance misuse, parental incarceration, domestic violence or family separation. Consequently, areas such as healthy relationships, mental and physical wellbeing and keeping safe are of paramount importance. We believe that a Personal, Social, Health and Economic (PSHE) education is incredibly important because it helps pupils to develop the knowledge, skills and attributes they need to manage their lives, now and in the future. We want all of our pupils to be equipped to navigate their way through the stresses, pressures and influences on their lives and to know how to stay healthy and safe. We will help them to develop their emotional literacy and positive mental health, to find their own voice and to have autonomy in their life and in their choices. Our pupils will be shown how to transform their potential into long-lasting success both in their personal and working lives.

Knowledge

We ensure that throughout the PSHE curriculum pupils acquire the key knowledge required to:

- Keep themselves healthy
- Keep themselves safe
- Take care of their mental health
- Communicate their feelings
- Make well-informed financial decisions
- Be successful in their chosen career

Character

We ensure that pupils develop their own character attributes by teaching them how to take good care of themselves, to be discerning in their relationships and of the influences on them. We teach pupils to know their own worth, to be their authentic selves and to respect others. To build skills such as reliance, determination, kindness, tolerance and empathy.

Creativity

We ensure that pupils can respond to their learning and express their thoughts and feelings in creative ways. We encourage them to find their voice and to be confident to be themselves.

Innovative Thinking

We inspire pupils to think innovatively, to problem-solve and to learn to make well-informed decisions that are not heavily influenced by others. We encourage pupils to become discerning and autonomous in their linking, to 'read between the lines' and to be confident in their own opinions.

Transform

We teach pupils to transform the essential knowledge and skills that they are taught in the PSHE curriculum into long-lasting success in the world of further study and work. We ensure that pupils understand what it is to be human and will develop key characteristics like empathy, tolerance and respect for other people, their cultures and beliefs.

Curriculum Design

The PSHE curriculum for Bolton Impact Trust is based upon the Jigsaw PSHE program which is a mindful approach to health and well-being, and brings together Personal, Social, health and Economic Education, emotional literacy, social skills, and mental health and resilience development in a scheme of learning. It is compliant with the statutory RSHE requirements (England, DfE, 2019) and is carefully planned and sequenced so that knowledge builds upon prior knowledge and as pupils move through the academic year and the various pathways, knowledge and understanding is deepened and regularly revisited.

Pupils who leave us to return to mainstream are able to re-engage with the PSHE curriculum there because we do not narrow their offer when they are with us.

The PSHE curriculum is also designed to be flexible and to respond to the needs of the pupils. The PSHE lead liaises closely with the DSL and if a particular issue arises in a setting, staff are able to respond to that issue through the PSHE curriculum if the Leadership team feels that this is necessary.

The PSHE curriculum is organised into six key topics for each half term-

Being me in my world – Pupils in each year group or stage (entering, emerging, developing and securing) will consider how they fit into the world, how the world affects their identity and what control they have over this. They will also explore the online world and how this affects their identity and what they can control in the virtual world.

Celebrating Difference - Pupils in each year group or stage (entering, emerging, developing and securing) will consider how different we all are from one another and think about whether differences are a good or bad thing. They will look at inequality and whether difference results in inequality.

Dreams and goals - Pupils in each year group or stage (entering, emerging, developing and securing) will look at how their choices affect their dreams and goals and what autonomy they have in securing those ambitions. They will explore what success means to them and how physical and mental health play a significant part in achieving their dreams and goals.

Healthy Me – Pupils in each year group or stage (entering, emerging, developing and securing) will learn to take responsibility for their physical and mental health. They will understand what keeps them healthy and they will understand how substances can affect both mental and physical health.

Relationships - Pupils in each year group or stage (entering, emerging, developing and securing) will learn the differences between healthy and unhealthy relationships.

Changing Me - Pupils in each year group or stage (entering, emerging, developing and securing) will learn to deal with the changes that they are experiencing in all aspects of their lives. They will explore how they feel about themselves as they change and move towards adulthood and what they need in order to be happy and fulfilled.

Although our PSHE curriculum is mapped and somewhat fixed, we allow the flexibility for PSHE teachers to address issues and needs as they arise; consequently, our lesson curriculum is often adapted in response to issues noted via CPOMS logs. For example, if we have concerns about students being criminally exploited, we may address issues such as county lines with groups that these concerns relate to, even if it is not scheduled to be covered until later in the year. SMSC is at the heart of our PSHE curriculum and this was reflected through our acquisition of the gold standard award for SMSC in 2022.

At KS3, all students access three 50 minute PSHE sessions per week. At KS4, our students access one 50 minute PSHE lesson per week but also access a dedicated careers lesson; KS4 students work toward gaining an ASDAN qualification. All PSHE lesson are taught by the same subject specialist and all careers lessons are delivered by our qualified careers lead. All classes are supported by a learning mentor who is available to provide additional support for students within the class and also able to assist with the creation and delivery of adaptive teaching resources. As some of the most prominent issues covered in PSHE here link to safeguarding, all staff complete termly CPD on matters such as county lines and knife crime to ensure that we have the necessary skills and knowledge to tackle these issues across the school. All staff have regular teaching and learning CPD opportunities available to them via the trust but are also supported in accessing external subject specific professional development opportunities. PSHE and careers staff are part of whole trust and wider community PSHE hubs where they network with other practitioners and share good practice.

Reading is prioritised across all subjects at Youth Challenge; in PSHE we focus on subject specific vocabulary and using this vocabulary within context.

Oracy is an integral part of PSHE and we work hard to provide our students with the vocabulary needed to express their thoughts and ideas, and make themselves heard by communicating these in an articulate and appropriate manner. Students are encouraged to build banks of vocabulary, and word games, reading activities and varied engaging text based resources are used to encourage reading within lessons.

Our PSHE, ECM and careers curriculum are all categorised under the broader title of 'Personal Development' and thus the curriculum for all three subjects are closely linked and mapped. KS3 students access one morning off site in which they partake in our ECM curriculum; at KS4 this is delivered one afternoon per week. Our ECM sessions address the phase one needs of our students by focusing on different aspects of the Every Child Matters agenda, such as keeping safe and healthy lifestyles. Furthermore, external speakers are regularly brought in to deliver workshops to students on topics such as first aid and knife crime; these sessions are well received and help bring topics to life. Students enjoy PSHE at Youth Challenge and appreciate its value in their personal development; past students often contact our PSHE staff to thank them for the positive impact that they have had on their lives, especially when it comes to securing employment.

The PSHE Curriculum Intent

In Youth Challenge our pupils are grouped in different age groups at key stage 3 and key stage 4. Staff use the curriculum overview to plan schemes of work which identify and deliver the key component knowledge of each theme for each key stage. Staff use assessments and intelligence gathered during induction to identify the gaps in knowledge that pupils have and ensure that these are addressed in their planning.

For some elements of the PSHE curriculum it is important that pupils are taught age-appropriate content. Staff are incredibly careful not to deliver sensitive content to pupils who are younger than the year group that it is normally taught to.

For some pupils, personalisation of the PSHE curriculum is required because there is a need to deliver key knowledge that has been missed previously through non-engagement or attendance in school that is related to an issue that the young person is currently experiencing. Senior leaders and DSLs will ensure that this is addressed through key working or 1-1 sessions.

--	--	---

Curriculum Map- PSHE

Pupils will know what becoming an adult means and the legislation that affects them. They will know the law around age limits, consent, marriage and civil partnerships.

Pupils will know why coercive control, sexual harassment and sexual violence in relationships are unacceptable and the legal consequences of such behaviour. Pupils will know the law on internet use and pornography, possession and supply of drugs, tobacco and other substances and the legal consequences of breaching the Equality Act.

Pupils will know the correct steps to take in a range of emergency situations

Summer

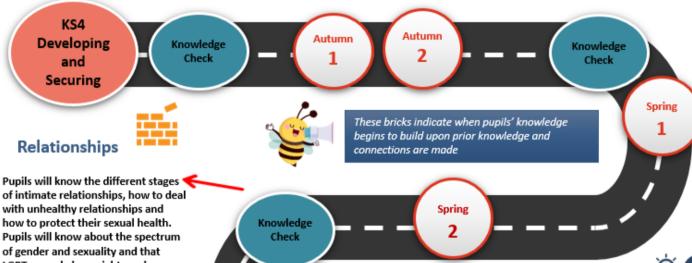

Dreams and Goals

How to take care of their physical and mental health and how to use solution focused thinking. They will know what skills they need to achieve their career and financial goals and be knowledgeable about how to manage their finances and to avoid debt. They will know their long-term goals in relation to relationships and the choices they have in those.

They will know the challenges that parenting brings and what being a successful parent looks like. They will know what barriers may exist to their dreams and goals and how to mnae when things go wrong.

how to protect their sexual health.
Pupils will know about the spectrum
of gender and sexuality and that
LGBT+ people have rights and
protection under the Equality Act.
Pupils will know why honour-based
violence and forced marriage is
unacceptable and illegal and what
FGM and breast ironing is and why it

is illegal.

Pupils will know what hate crimes are and how to report them.

Healthy Me

Pupils will know how to manage anxiety and stress and how to deal with exam pressure. They will know the importance of sexual health, hygiene and self-examination; and the risks around unhealthy sexual relationships including how to avoid high risk situations in relation to sex. They will know what a healthy relationship is and how sex fits into this. They will know about contraception and fertility and all of the choices they have available. They will know about pregnancy and their choices including the financial implications of having a baby.

Knowledge Check

Assessment and Progress in PSHE

The Trust has established its own attainment descriptors for PSHE in all of its secondary provisions in conjunction with the Jigsaw PSHE online programme. Staff use pupils' work in books, along with summative and formative assessments to inform their judgement of progress every term. Pupils are expected to meet age-related expectations for each topic and progress is measured using the summative descriptors below for each topic. We ask teachers to attribute the level descriptor that is a 'best fit' for each pupil.

Progress is judged using the criteria outlined in the table below:

Above Expected Progress	A pupil displays all of the knowledge and skills in the = band for their chronological age and most of the knowledge and skills
	in the + band for their chronological age
Expected Progress	A pupil displays all of the knowledge and skills in the – band for their chronological age and most of the knowledge and skills
	in the = band for their chronological age
Not Met	A pupil does not demonstrate all of the knowledge and skills in the – band for their chronological age

BIT Level Descriptors for PSHE

		Being Me In my World
	7-	Pupils can talk about their self-identity and how they relate to others both off and online. They can name some ways that make them a unique individual and suggest ways that their online activity has consequences.
KS3 Emerging (Year 7 ARL)	7=	Pupils can compare their self-identity with how they believe others see them. They can explain factors that affect their self-identity, including influential relationships they have, both off and online. They can explain their uniqueness as an individual and some factors that contribute to who they are, including relationships, past events and experiences. They can explain how to maintain positive off and online relationships with others. They can explain the impact of online activity on themselves and others and say how to report any online risk.
	7+	Pupils can evaluate the importance of self-identity and belonging and how people relate differently to themselves and to others. They can explain how to maintain positive online relationships. They can discuss Their growing independence as a unique individual and what has shaped them. They can discuss how others may view them differently and have different expectations of them and justify which of these expectations are fair. They can evaluate the impact of online activity on their own and others' sense of self.

	Pupils can give examples of things that can influence a person's identity. They can give some examples of things their life that have influenced their personal identity. They recognise that their first impressions of others may not accurate.	
	Pupils can explain why a person's identity is complex and what may influence that. T can also explain why this m change over time. I recognise that the factors that influence people's identity can vary according to beliefs and cult can see and respect	-
KS3 Developing (Year 8 ARL)	other people for who they are rather than what I assume they should be like. I accept and respect difference and can influence this.	wha
	Pupils can draw on a range of evidence to support their arguments, they can explain why a person's identity is unand complex and the range of influences that may affect it. They can explain why a person's identity may change time and evidence their ideas. They can discuss their growing independence as a unique individual and relate this the personal choices they make. They can also empathise with others who have different influences on their idea and explain why this could negatively or positively influence their thoughts about them. They can use this to explain why it is important that they try to gain an accurate view of a person so that they respond to them as unique individuals themselves.	ov s to tity
	Pupils can state ways in which their identity and self-esteem can be influenced positively and negatively by their relationships and choices. They can give examples of risky behaviours and know how to access advice and supp they need to.	ort
KS3 Securing (Year 9 ARL)	Pupils can explain how groups can be both positive and negative influences and identify what they can do to ensit that they make positive choices to develop as who they are, rather than as who others want them to be. They can explain what some people do to avoid risky behaviours and why others find this difficult. They can explain strategoresist pressure from others to behave in ways that make them feel uncomfortable and put themselves or others a of harm.	n jies
	Pupils can discern the positive influences groups can have on them and the potential risks that can arise from negative pressures and influences, giving examples of ways to respond positively to these influences and how the could support others in doing so. They can explain, with examples, how a person's positive or negative self-ident	•

		can contribute to the choices they make, and suggest ways in which they can support friends who might be more vulnerable to negative influences.
	10-	Pupils can say what the Human Rights Act means. They can state the stages of grief. They can state the positive and negative effects social media can have and suggest what people can do to keep themselves safe online. They are aware that rights and responsibilities can differ around the world. They know how to access support and advice safely online.
KS4 Emerging and Developing (Year 10 ARL)	10=	Pupils can explain why the Human Rights Act is important. Using their understanding of 'netiquette' and the law, they can explain their responsibilities regarding their own internet behaviour. They can recognise how their feelings can affect their behaviour both on and offline. They can identify potential risks to their safety on social media and explain how to engage safely with it.
	10+	Pupils can discern how best to access support with issues of rights and with emotional stress. They can evaluate online risk and the potential impact this can have on them. They can evaluate the extent to which their sense of freedom needs to be tempered by responsibility to themselves and others. They can evaluate the extent to which their online identity is affected by their online behaviour.
	11-	Pupils can outline the legal and moral restrictions on their behaviour, relationships and lifestyle and give examples of what they are legally allowed to do or prevented from doing. They know some basic first aid, how to make someone safe and how to access appropriate help. They can distinguish between safe, risky, legal and illegal activities and what they need to do to keep themselves and others safe.
KS4 Developing and Securing (Year 11 ARL)	11=	Pupils can explain their rights and responsibilities in the context of a range of behaviours and situations that may arise as they move into adulthood. They know how to handle emergency situations responsibly and effectively. They can assess risk in a range of situations that they may encounter as they move into adulthood, and can make informed decisions and choices that will have a positive impact on their life. They can assess an emergency situation, taking into account the emotional state of those involved.
	11+	Pupils can evaluate and discuss legal and moral constraints on people's behaviour, relationships and lifestyle and relate these to potential consequences for individuals and society. They can offer support to friends who are experiencing problems in relation to behavioural, relationship and lifestyle issues, giving informed and reasoned advice to help them recognise and manage risk, signposting them to appropriate sources of information and support.

	Celebrating Difference		
	7-	Pupils can say what stereotyping, prejudice and discrimination are and give examples of each. They can state what is and is not bullying. They can say why it is important to respect others. They can take others' thoughts, feelings and circumstances into account in how they manage their relationships. They know how they and others can access help and support if being bullied or suffering discrimination.	
KS3 Emerging (Year 7 ARL)	7=	Pupils can explain why different forms of positive and negative prejudice and discrimination happen. They can challenge their own and others' attitudes, values and behaviours. They can explain how difference can be positive. They know the significance of the Equality Act. They can describe different ways to challenge bullying, discrimination and prejudice.	
	7+	Pupils can explain how stereotyping, prejudice and discrimination are linked and how they are influenced by a variety of factors, such as personal belief, the impact of the media and societal and cultural influences. They can give informed arguments on these issues to challenge prejudice and discrimination assertively. They can evaluate the effectiveness of different strategies that may support victims of prejudice and discrimination and suggest the possible outcomes.	
	8-	Pupils can give an example of social injustice and offer suggestions about what they could do to make a positive difference about it. This could be in a local, national or global context. They can give you some examples where they contributing to improving life for themselves and for others.	
KS3 Developing (Year 8 ARL)	8=	Pupils can argue effectively and assertively why social injustice and inequalities are unfair. They can provide personal examples of things they could do to challenge this and constructively improve their community, and how this can have a positive impact on their self-esteem. They can explain the benefits and challenges of living in a diverse society and what they can do to improve life for others as well as for themselves.	
	8+	Pupils can argue their own viewpoints to challenge injustice and inequality in relationships, the community and globally, supporting their ideas with a range of evidence and justification. They can evaluate the effectiveness of different things	

		they could do to bring about a positive change in their life and that of others in a local, national and global context, challenging inequality and injustice.
	9-	Pupils can give an example of prejudice and discrimination and how this could lead to bullying. They can also give examples of positive and negative language and how this can impact on others. They can give you an example of when they have learnt about other people and it has changed their view of them and their behaviour towards them. They can give some examples of the consequences of bullying, prejudice and discrimination and suggest some ways they can protect themselves or others from these situations.
KS3 Securing (Year 9 ARL)	9=	Using examples, pupils can explain why inequality and discrimination happen, what we can do to challenge them and why it is important to do so. They can explain the importance of language in conveying positive messages to others. They can explain why empathy, having an open mind and being able to personally reflect on their own attitudes and behaviour will assist them to protect themselves and others from discrimination and inequality.
	9+	Pupils can argue their own viewpoints to challenge bullying, discrimination, prejudice and inequality, supporting their ideas with a range of evidence and justification. They can evaluate the effectiveness of different strategies they can use to protect themselves and others from prejudice, inequality and discrimination
KS4 Emerging	10-	Pupils can explain the Equality Act and how it protects a range of groups in society from abuses of power and discrimination. They can recognise inequality in a range of personal and societal contexts.
and Developing (Year 10	10=	Pupils can explain what is meant by 'balance of power' in personal and public relations and give examples of the impact abuse of power can have in the lives of individuals and groups. They are able to identify the links between inequality and mental and physical health and suggest strategies to improve outcomes for different groups.
ARL)	10+	Pupils can evaluate the extent to which inequality is based on perceptions of 'difference' and assess the effectiveness of different solutions to a range of local, national and global inequalities. They can recognise which groups are likely to

		face barriers to health, wellbeing and equality and can recommend which campaigns for equality are likely to be most effective.
KS4 Developing and Securing (Year 11 ARL)	11-

	11+	

		Dreams and Goals
	7-	Pupils can give examples of their dreams and goals and suggest how they might change as they get older. They have some idea of what they need to do to achieve their goals. They recognise that their choices will affect whether or not they will achieve their dreams and goals. They can identify some of the steps they might need to take to achieve a dream or goal. They can also identify some potential obstacles that they might face and can suggest ways to overcome them.
KS3 Emerging (Year 7 ARL)	7=	Pupils can explain how internal and external factors might affect their own dreams and goals as they get older. They can explain how choices they make have consequences for achieving their dreams and goals and give examples. They can explain what influences the choices they make. They can explain why they need to take more responsibility for their own choices. They can identify steps for achieving a dream or goal. They can offer a range of strategies that they could use to overcome obstacles. They are beginning to see setbacks and mistakes as opportunities to learn and improve.
	7+	Pupils can evaluate the significance of experiences, both positive and negative, for helping them to make better choices for their future. They can explain the impact their choices may have on their relationships, health and future. They can anticipate potential challenges and plan in advance strategies to help them achieve some of their dreams or goals. They I can evaluate these plans and suggest ways they might change and how they could be adapted as necessary. On the whole, they take responsibility for their choices and actions

	8-	Pupils can give an example of one of their short-term goals, a medium-term goal and long-term goal, and suggest what they need to do and avoid doing if they are to achieve these. They can give one positive and one negative way in which money can influence their life and say why it is important that they learn to manage their spending. They recognise that choices and decisions they make now can have good or bad consequences on their future life and can state some positive things that they can do to achieve their goals.
KS3 Developing (Year 8 ARL)	8=	Pupils can explain why it is important that they learn to manage their finances as they get older and how this is important to some of their short-, medium and longer-term goals. They can suggest factors that might maximise or threaten their chances of achieving their dreams and goals, considering how these might change over time. They can justify their views about money and see different points of view that others may have. They can explain what they can do to ensure that their online presence does not interfere with them achieving my goals.
	8+	Pupils can argue with a range of evidence and justification, why money can be a positive or negative influence in a person's life and how that could affect their personal goals. They can evaluate their own strategies for overcoming obstacles or problems when trying to achieve their goals and justify which strategies may be more or less successful. They can empathise with others who have different financial circumstances to their own and can put forward their own viewpoints about the moral issues surrounding money.
	9-	Pupils can list some attitudes and beliefs that may help them to achieve their goals and those that might prevent them from doing so. They can show evidence of some SMART planning which could support their life and learning. They can tell you some of the ways they can manage their feelings when they face setbacks, and to help them move forward with their plans.
KS3 Securing (Year 9 ARL)	9=	Pupils can explain why their mental and physical health are important to realising their dreams and goals, and why having some non-material goals are important for self-esteem. They can show evidence of some SMART planning to support their life and learning and plan for any potential setbacks that could arise. They can suggest ways that people can develop a positive view of themselves and a more confident approach to their future.
	9+	Pupils can discern between helpful feedback and negative criticism and explain how each can affect a person's mental health and their ability to achieve their goals. They can evaluate their own planning and personal strategies for overcoming obstacles or problems when trying to achieve their goals. They can evaluate the effectiveness of strategies

		that promote a positive self-image and can also suggest ways of addressing mental health issues and how these strategies can help a person be better able to achieve their personal dreams and goals.
	10-	Pupils can state aspects of their relationships and life that help or hinder them in achieving their goals. They can identify the difference between realistic and unrealistic dreams and goals. They know what resilience is and can give examples of how they can build their own and others' resilience.
KS4 Emerging and	10=	Pupils can explain how different lifestyle choices (e.g. health, altruism) can have both positive and negative consequences for their future, and the importance of a balanced approach to life. They recognise the importance of other people and groups in helping them to achieve their goals and raise their aspirations.
Developing (Year 10 ARL)	10+	Pupils can explain what will help them to achieve their goals and how their dreams are important in raising their aspirations and sense of purpose. They can set challenging goals for their future and know how their health, relationship and lifestyle choices can help them to achieve these.
KS4 Developing	11-	Pupils recognise that their future is more than just a career; it also involves family, social life, money and health. They can state some of their goals in these aspects of their life. They can state some of the potential barriers for each of these and suggest what they can do to overcome them. They can identify some of their personal strengths that can help them to overcome obstacles to them achieving their dreams and goals.
and Securing (Year 11 ARL)	11=	Pupils can explain how potential stresses in all aspects of their life might seem overwhelming and offer detailed strategies to manage a more balanced lifestyle personally, socially, financially and in terms of health. They feel confident that their skills and relationships will help them to overcome barriers to their dreams and goals and get through stressful, challenging times.
	11+	Pupils can evaluate the strengths and weaknesses of different approaches to managing stress and overcoming disappointment, and can justify the approaches that they think are most beneficial for achieving career, family, social financial and health goals and how these work together for mutual benefit. They can adopt a reflective and self-aware

	approach to achieving their dreams and goals and suggest ways to support those who might struggle in terms of career
	skills, family planning, financial management and healthy living.

	Healthy Me		
	7-	Pupils can give examples of how feelings influence their health choices and recognise that how they respond to stress will affect their own and others' behaviour. They I know what makes them healthy and what will harm their health. They know that medicines and vaccines can cure and prevent illness, and must be used correctly. They can name some things that they could do to help them feel good, that are not damaging to themselves or others. They know how to access accurate information to help me stay healthy.	
KS3 Emerging (Year 7 ARL)	7=	Pupils can explain ways that emotions are linked to physical health and that they play a part in making healthy/ less healthy choices. They understand how healthy/ less healthy choices can affect emotions. They can explain how medicines and vaccines can cure and prevent illness, and why they must be used correctly. They can explain why it is important to express their feelings and manage them positively. They can offer strategies that they could use to help them to make responsible choices. They I can apply these to support others with their choices and decisions.	
	7+	Pupils can explain the relationship between emotions and healthy/ unhealthy life choices and how each has an effect on the other. They can evaluate strategies that people could use to help them stay happy and healthy and to reduce risk-taking behaviour. They can evaluate different views about how medicines and vaccines can be used to promote healthier lifestyles. They can justify their thinking about making responsible choices and managing the internal and external pressures that might influence them. They can research appropriate sources of information and distinguish these from those that are not reliable.	
KS3 Developing (Year 8 ARL)	8-	Pupils can give examples of responsible choices that they can make to support their physical and emotional/ mental health. They can give an example where a person's emotions could lead to their thoughts and behaviour damaging themselves or others. They can also suggest ways to access support and information so this is less likely to happen.	

	8=	Pupils can explain a range of responsible choices that I need to make to support their physical and emotional well-being and how these are linked. They can discuss the impact, positive and negative, that different substances can have on a person's health and well-being, on vulnerable individuals and on society as a whole. They can explain how emotions are linked to thoughts and actions, which can lead to positive or negative lifestyle choices. They can suggest strategies that could be used to support their emotional/mental and physical health, including risk management, and explain why these could be effective.
	8+	Pupils can justify and debate the tension between personal choice and social responsibility for physical and emotional health and why in some circumstances this could be challenging. They can evaluate personal strategies that they could use to support their physical and emotional/mental health and give reasons why some may be more effective than others.
	9-	Pupils can say how substances and alcohol can affect decision-making and give examples of potential consequences if this were to happen. They can give examples of strategies that they can use to help them to make safe and healthy lifestyle choices when they are in situations that make this more difficult, and they know how to access support and advice.
KS3 Securing	9=	Pupils can give evidence that shows the majority of young people make healthy and safe lifestyle choices. They can also explain some reasons why this may not be the perception of others in their school and wider community. They can express the confidence to make lifestyle decisions to keep themselves safe and physically and emotionally healthy. They can explain how to deal with emergency situations should they arise.
(Year 9 ARL)	9+	Pupils can explain a range of measures that they need to take to support their physical and mental health. They can debate why some people choose to make unhealthy/ unsafe lifestyle choices and how this may have consequences for their health and well-being, and that of others. They can explain why being confident and discerning when making lifestyle choices is important and the range of pressures and influences that could be detrimental to these.

	10-	Pupils can state some of the potential threats to their health both now and in the future and they are aware of the link between mental and physical wellbeing. They can describe how to access support and adopt a range of activities that will improve their physical, sexual and emotional health.
KS4 Emerging and Developing (Year 10	10=	Pupils can examine and explain factors that can negatively affect their health and wellbeing, both physically and mentally. They can explain how a range of preventative measures can have a positive impact on their life and reduce the risks of physical, sexual and mental illness in the future. They can assess the challenges to healthy living that could confront them now, and in the future, and explain how these could be met most effectively so that they are better able to be responsible for their own physical, sexual and emotional health.
ARL)	10+	Pupils can evaluate the lifestyle choices available to them and how they might have an impact on their physical, sexual and emotional health and sense of well-being. They can discuss different ideas and perspectives on physical, sexual and emotional health and justify their own opinions based on evidence. They can explain why the health choices people make are sometimes different from their reasoned opinions.
KS4	11-	Pupils can recognise some key STIs and know about appropriate treatment for them. They can give some examples of behaviours that do not conform to a healthy sexual relationship. They know how to keep themselves and their partner physically and emotionally safe in a sexual relationship. They recognise that healthy relationships are built around mutual respect and choice.
Developing and Securing (Year 11	11=	Pupils can explain how to avoid unwanted consequences in a sexual relationship, and how physical and emotional health are closely linked to responsible choices and mutual respect. They can explain where to go for accurate information, advice and support concerning sexual and reproductive health. They can confidently express my feelings and views about potential physical or emotional harm in relationships and say how they can access support.
ARL)	11+	Pupils can assess the health risks in a range of sexual behaviours and relationship choices and suggest ways to manage that risk in a positive way to minimise any harmful consequences. They can justify their own views regarding what constitutes healthy and safe behaviours and relationships, whilst recognising that people have different views and expectations.

	Relationships		
	7-	Pupils can identify some attitudes, values and behaviours that make a positive or a negative relationship. They can suggest positive ways to deal with conflict in a relationship. They can state the importance of consent in any relationship. They appreciate that relationships change over time. They are aware of appropriate and inappropriate attitudes and behaviours in different types of relationships.	
KS3 Emerging (Year 7 ARL)	7=	Pupils can explain a range of feelings that people may experience within different relationships and how these may relate to their behaviour. They can explain why discernment is important in understanding relationships and the importance of respect, consent and authenticity in building positive relationships and resolving conflict. They understand how to behave in a more assertive manner in their relationships to maintain respect, build authenticity and manage their emotions.	
	7+	Pupils can explain the complexity of changing relationships and evaluate the attitudes, values and behaviours that contribute to building positive relationships. They can discern between what is and is not appropriate in different relationships and what people can do to build healthy, supportive and respectful relationships in a range of contexts	
	8-	Pupils can say why relationships are important and describe different types of relationship, including their relationship with themselves, and how these can vary culturally and on social media. They can recognise different factors that	

KS3 Developing (Year 8 ARL)		contribute to a positive or negative relationship. They recognise some things that they can do to improve their ability to build positive relationships with themselves and others.
	8=	Pupils can explain how and why social and other media could influence their view of themselves and their relationships. They can discern between what is and is not appropriate in a relationship, giving examples, and how this can vary according to context. They can suggest ways that they can be more in control of my relationships and emotions and explain how this could be important in maintaining positive and stable relationships in the online world, as well as when they are offline.
	8+	Pupils can evaluate issues of equality, power and coercion in relationships, distinguish how these might vary according to context and culture and justify their views on what makes a positive relationship. They can identify and assess their skills in building positive relationships and evaluate strategies that might help them to manage their relationships more effectively. They can apply this empathetically to other people to support them in their relationships
KS3 Securing (Year 9 ARL)	9-	Pupils explain why it is important to make informed choices when considering having sex. They know that consent is a vital feature of any relationship. They can say what is and is not legal regarding sexual relationships and behaviour on social media. They can explain how they would challenge a person's behaviour if it made them feel uneasy or uncomfortable. They can say why consent is important in relationships. They know when they need to be assertive to keep themselves safe.
	9=	Pupils can explain how power or coercion could be used in online and offline relationships. They can explain why some young people choose to have unprotected sex and why, demonstrating good knowledge of the possible consequences. They can describe issues relating to pornography. They can reflect on their own values and how these contribute to their confidence in making informed, healthy and safe lifestyle choices. They know how someone can keep themselves safe in a sexual relationship and how to access support and advice
	9+	Pupils can discuss, with examples and justification, the health, legal and moral issues facing young people regarding sexual relationships and assess the potential consequences on their lives, health and wellbeing. They can evaluate

		people's options in a range of issues to do with sexual relationships, and assess what is right for them in relation to the law, their personal values and the possible consequences of their actions and choices.
KS4 Emerging and Developing (Year 10 ARL)	10-	Pupils can list a range of different types of relationship and group them in order of importance, length and intimacy. They can state what makes a positive relationship and give examples. They can also state what makes a relationship inappropriate and apply this to different types of relationship. They describe something they would do to mend or end a broken relationship. They can tell you how they can access support if a relationship problem is worrying them.
	10 =	Pupils can explain why relationships are important in our lives and how they can affect us positively and negatively. They can suggest reasons why some relationships break down and what they can do if this happens to them. They can compare the differences between unhealthy and healthy relationships. They can explain the emotional investment in relationships and what the effect might be (behaviourally and emotionally) when a relationship becomes unhealthy or ends. They recognise what helps to build positive relationships and can identify behaviours and attitudes that can turn them into negative experiences. They can suggest ways to improve aspects of an unhealthy relationship and how to move on from difficult experiences.
	10 +	Pupils can critically evaluate the importance of certain emotions in a range of relationships and assess the importance of 'love', appropriately understood, in their own relationships. They can discern between genuine and superficial relationships and when each is appropriate. They feel confident to support a friend who is experiencing difficulties in a relationship, giving sensitive and sensible advice and signposting them to appropriate external advice and support. They can solve multifaceted relationship dilemmas and offer a range of different strategies that could be used.
KS4 Developing and Securing (Year 11 ARL)	11-	Pupils recognise that people have different preferences regarding sexual relationships and that what is most important is mutual consent and respect. They can state why some culturally based practices such as FGM are unacceptable and illegal. They can tell you the difference between relationships in the media and those that happen in real life. They can understand different gender identities.
	11 =	Pupils can describe a range of ways in which gender identity can be experienced and expressed and explain what is most important in a relationship in terms of the well-being and needs of both parties. They can explain why equalities need to be protected and why some practices are not legal. They can apply their knowledge and understanding of the issues involved in close sexual relationships to choices and decisions in their own relationships. They can explain why

	respect is essential to developing a range of healthy relationships. They can suggest a range of ways to access support
	if they are concerned about a sexual relationship.
11	Pupils can discern between what is legally allowed or prohibited and what people believe to be morally or culturally
+	permissible, and can evaluate a range of arguments relating to inclusion, equality and human rights. They can empathise with people who have different views to their own about sex, sexual relationships and sexual identity, whilst being able to stand up for what they believe to be right and within the law. They know how they can seek or recommend sources of advice and support in issues of equalities in relationships.

	Changing Me		
KS3 Emerging (Year 7 ARL)	7-	Pupils can state the basic facts of puberty and pregnancy and state some of the potential issues of growing up in the modern world, including potential abuse. They know how to access advice and support. They appreciate that their feelings will change as they develop and that they can get support and advice to help them.	
	7=	Pupils can explain how physical changes in puberty can affect mood, self-esteem and self-image. They can explain different ways of producing a baby and how different types of family roles can support healthy relationships. They can argue why certain actions count as abuse. They know how to maintain a positive view of the changes they are going through and how to build their self-esteem through their supportive relationships.	
	7+	Pupils can evaluate the impact and challenges of changes in adolescence and explain how young people can cope with these, by accessing appropriate advice and support. They are able to discern between those things that help to build their self-esteem and those which threaten it. They are aware of their emotions, what causes them and what they can do to maintain a positive self-image. They have strategies to access appropriate support to stay positive and boost their self-esteem.	
KS3 Developing (Year 8 ARL)	8-	Pupils can state the basic facts of puberty and pregnancy and state some of the potential issues of growing up in the modern world, including potential abuse. They know how to access advice and support. They can describe physical and emotional attraction and suggest appropriate age-related behaviours in a close, romantic relationship.	

	8=	Pupils can explain the difference between a crush and a deeper romantic relationship. They can explain the potential risks and impact pornography and alcohol can have on an intimate relationship. They can explain how to build a positive romantic relationship, what might prevent this and how someone can access support if they are concerned about a relationship.
	8+	Pupils can discuss the process of developing a deeper romantic relationship and how this differs from other types of intimate relationships. They can identify and assess a range of positive or negative behaviours and attitudes and their potential impact on the development of the relationship. They can distinguish physical and emotional attraction from sexual desire, and evaluate the potential negative impact of some behaviours on the development of healthy and positive romantic relationships, suggesting how these can be resolved.
	9-	Pupils can list ways in which change can affect their mental health and can state some things they can do to cope with change. They can describe some of the things they have learnt about themselves that will help them to manage change.
	9=	Pupils can explain what resilience is, how it helps us cope with change and what people can do to develop greater resilience. They can explain how change can be perceived as either negative or positive and suggest ways to deal with the negative and emphasise the positive aspects. They can reflect on the skills they need to develop to enhance their resilience and can recognise how to be more in control of the changes in their life and of their responses to change.
KS3 Securing (Year 9 ARL)	9+	Pupils can evaluate the impact of certain life events on someone's mental health and relate this to the experiences of change in adolescence and how this can affect teenage mental health. They can assess the effectiveness of certain strategies to address the stress caused by change, and the best ways to access support and advice. They can evaluate the potential impact of change on a person's life and health, and assess the effectiveness of different strategies for dealing with change and reducing the stress it can cause.
KS4	10-	Pupils recognise changes they have gone through and the effect they have had on themselves and those close to
Emerging and		them. They can list ways society has changed recently and give some reasons for these changes. They can describe

Developing (Year 10 ARL)		issues concerning gender identity. They can list sources of advice and support for young people. They recognise that change is inevitable and give examples of how they have managed change. They can list some strategies that help manage change.
	10 =	Pupils can explain factors that influence change in a range of contexts and how change can affect the people involved, especially young people. They can discuss gender issues thoughtfully in an informed way and appreciate the complexity of the issue. They can apply their understanding of change management to the emotional and physical changes that occur in adolescence and use this to suggest strategies for coping with change.
	10 +	Pupils can explain the links between social change and people's attitudes and ways of life. They can explain what influences our decisions and identify what kind of decision maker they are. They can evaluate the impact of change in a range of contexts on society and on individuals and express a reasoned and informed opinion about the value of those changes in people's lives.
KS4 Developing and Securing (Year 11 ARL)	11-	
	11 =	
	11 +
