# DAY 3 PART 1

## SPEECHES

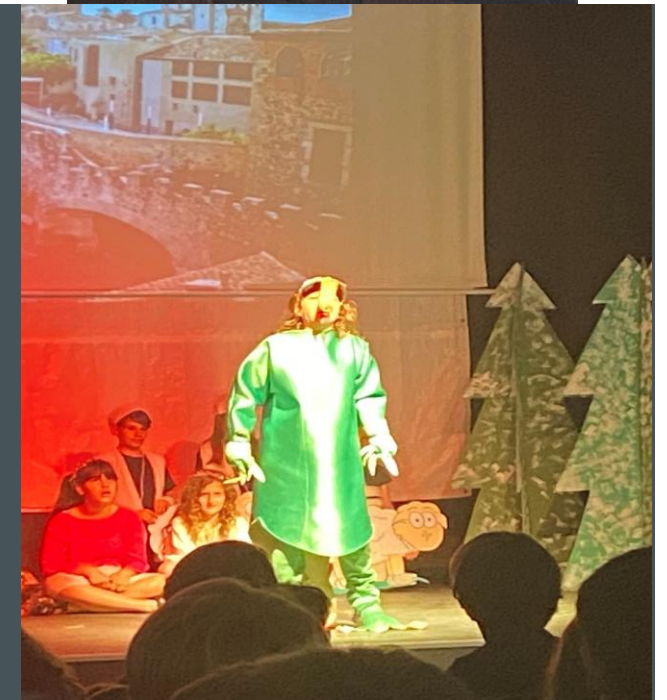

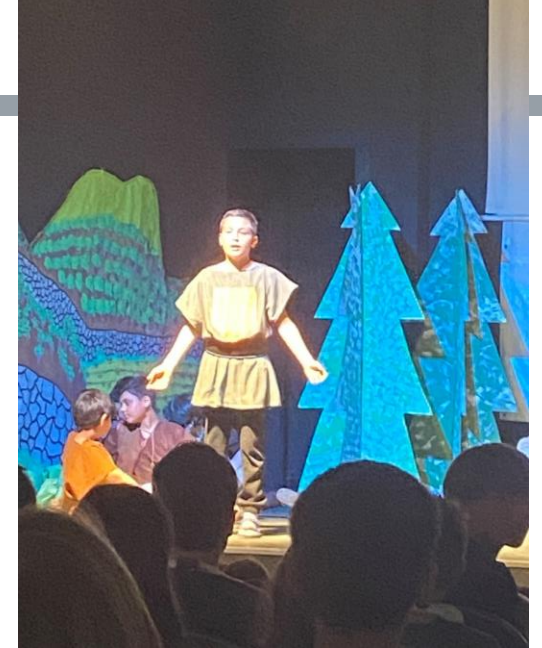

On the third day we all woke up and had breakfast. We then had a five minutes walk to the school called El Pinns in Castledfels . We arrived at school and we had to do our speeches; we were all nervous because we had to go first. We learnt a lot about climate change problems in other countries around the world. Ours was the longest but it was because the other school couldn't speak as much English even though their English was good.

# DAY 3 PART 2

## GRADE 4 PLAY

After break Grade 4 performed a play called St. Georgina and the dragon. It was about a dragon who came to their town to eat people so they start off giving the dragon animals and live stock. Eventually they had to give people up to the dragon so to pick them, they put everyone's name in a bag and select a random name. One day it was the prince and then St Georgina came and saved the prince and the dragon became friends with everyone.

# DAY 4

## BARCELONA

On day 4 we had a bus to Barcelona we saw lots of buildings that Gaudi had built, Gaudi had built lots of buildings from 1912 to 1926. They were very different buildings with different shapes. He died building amazing architecture like the Sagrada familia. The stained glass windows were beautiful when it was morning the cathedral is green and blue and in the afternoon its red and orange. We also saw amazing views of the city.

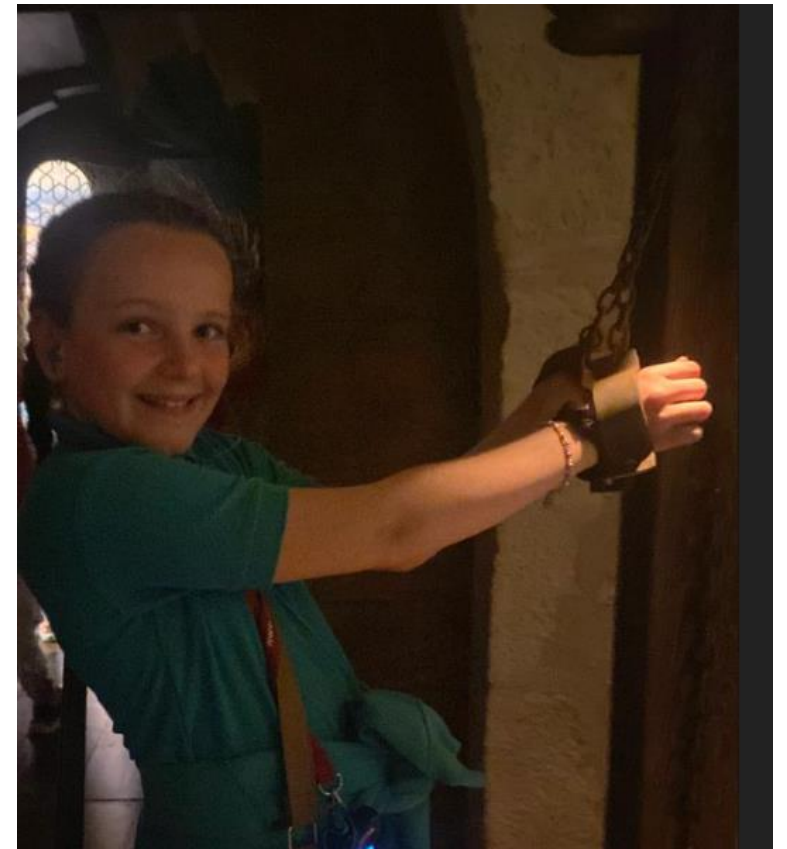

## Day 5 By Tyger

After breakfast we walked to the school and did some crafts. Then we practised the pirate landing activity which is a play about pirate in honour from when the pirates invaded Castelldefels.

Then we had break and snacks. During break some people kept on making art and made book marks. After break we did the play in front of the rest of the school and we met a girl called Claudi.

We had an amazing lunch at a cafe in the centre of Castelldefels (I had a tuna Lasagne) and played with the Turkish students in two parks at tag.

Then we met up with Wendy to go up a massive hill to get to the castle. (Niamh kept fanning me with her fan).

Once we got to the castle we were given some audio guides and headphones so we could hear the lady. Then we walked into a room and watched a video that revealed some artefacts from when the castle was first built. After that we went into a room with a moving floor and the Turkish children let me go in front of them. Then we went into the main castle which was amazing .

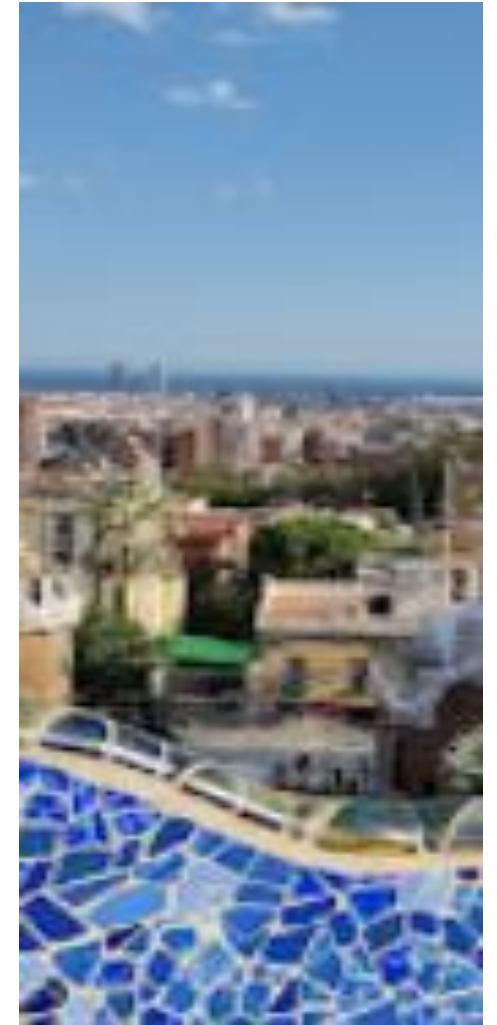

We saw more artefacts and Mrs. Burns took a picture of me, Mayia and Niamh in front of a Morse Code Machine.

Sadly we had to end the tour and we took a photo at the front of the castle. To remind us of Spain, we went into the gift shop and I bought a postcard. Then we walked back to the hotel. Then we went to an amazing ice cream shop. Me and Elsie wrote our diary's in her room then the girls came in and I wrote my postcard whilst they played games.

At the gala we had tea and cake then we said our goodbyes to Wendy and walked back to the hotel for the last night. 😊

Day 6

In the afternoon we went to a Guell Park and had a tour of it. Then we went to the actual park - it was great fun. Then we went to the hotel to pick up our luggage and then travelled on a bus to the airport. After we went through security, we hopped on a bus to the aeroplane. Then for the last time we went on an aeroplane to the UK. We went in Helen's car to the school then our parents picked us up. 😊

# Experience

BY ELSIE

## Experience

**We really liked the Gaudi buildings and they were very creative too! We went into his cathedral and we looked at some things that he designed and when we went into the castle, we were amazed! It was so old! It was a pirate castle that dated back over 900 years! Everywhere we went it was boiling - especially at lunchtime, when we were walking to the castle (it was on a very steep hill) and it was just after lunch.**
