

## Year 2 Geography Knowledge Organiser - The Arctic

### Key Information

The Arctic is at the top of the Earth.

Antarctica is at the bottom of the Earth.

The Equator is around the middle of the Earth.

The north and south poles (Arctic and Antarctica) are the coldest places on Earth as they are the furthest from the equator.

Global warming is the Earth warming up.

### Vocabulary

#### Equator

An imaginary line around the middle of Earth like a belt which is the hottest place on the Earth

#### Global warming

The Earth is heating up.

#### Ozone layer

An area around the Earth that traps heat.

#### Carbon footprint

The amount of gasses that create the ozone layer.

### Key Diagrams
