

Year 6 Science Knowledge Organiser - Living things

Key Information

Animals are either vertebrates or invertebrates.

All animals can be classified.

Not all plants have flowers. Plants that don't have flowers are moss, ferns and pine trees.

There are three main types of micro-organisms: viruses, bacteria and fungi.

Not all micro-organisms are harmful.

Yeast is a type of fungus that is needed to make bread.

Yogurt is made using a type of bacteria.
