

Thank you for your donations for the Hope for Mankind charity last week. We managed to raise a total of £345.00!

### ECO SCHOOL AWARD

Pupils at Bradley Primary School earned an international accreditation at the end of the last academic year, recognising their amazing work in making their school more environmentally friendly and raising eco-awareness in fellow pupils. The Eco-Schools programme was established in 1994 and is now delivered in more than 70 countries across the globe. More than 1 million pupils attended an Eco-School in England in 2022-23.

Pupils at our school first formed an Eco-Committee, then collaborated with Mrs Bowie and Miss Fisher to conduct an environmental review, assessing how eco-friendly their school is. They reviewed everything from biodiversity within their school grounds to how pupils and staff members travel to school. Building on their findings, pupils and Mrs Bowie then planned a year of action designed to advance their school's green credentials, improve their local environment, and protect our planet.

The Eco-Committee connected their work to 3 Eco-Schools topics: **energy, global citizenship and healthy living**. They then planned a variety of projects including raising money for Water Aid to support as part of our global citizenship work.

Mrs Bowie is incredibly **proud** of the work the eco council did last year and she is very excited to be working alongside the new eco council for 2023-2024. The new council is looking forward to continuing to build on the work from previous years. Last year's council showed commitment and enthusiasm throughout the year and were great **role models** to the other children in school. Eco-Schools England Manager, Adam Flint, said: "The Eco-Schools Green Flag award is an **internationally recognised symbol of high environmental standards**. The pupils and school staff that earn the award deserve immense credit for their hard work, determination, and creativity. Their passion for protecting our planet is an inspiration to us all."
