COVID STANDARD RISK ASSESSMENT

'On 21 February the Prime Minister set out the next phase of the Government's COVID19 response. COVID-19 continues to be a virus that we learn to live with and the imperative to reduce the disruption to children and young people's education remains. 5 Our priority is to support you to deliver face-to-face, high-quality education to all pupils. The evidence is clear that being out of education causes significant harm to educational attainment, life chances and mental and physical health.'

Category of Risk	Area of Risk	Risk Level	Mitigation	Who	Risk Level	Risk Status
	Tracing close contacts and isolation		<p>Using the guidance below: <a href="https://www.gov.uk/government/publications/covid-19-people-with-covid-19-and-their-contacts/covid-19-people-with-covid-19-and-their-contacts#what-to-do-if-you-have-covid-19">https://www.gov.uk/government/publications/covid-19-people-with-covid-19-and-their-contacts/covid-19-people-with-covid-19-and-their-contacts#what-to-do-if-you-have-covid-19</a></p> <p>Those positive with Covid should: Inform the school office of this and report this on a school morning either via phone, email or Parentmail. The office will record this on a daily covid spreadsheet which will be shared with appropriate staff. This will trigger remote learning for the child the next school day.</p> <p>The child should then self-isolate for 5 days and take an LFT test to release from isolation. This is strongly encouraged by the school for its pupils and staff. If we have been made aware, by the family that a child has tested positive with Covid, we will request that they remain off school until they test negative.</p> <p>Close contacts do not need to take LFT tests.</p>	<p>SG/AS/AS</p> <p>Class teacher</p> <p>Parents/ carers</p>		Monitor
