Keeping Your Child Safe in The Virtual World

Dear Parent/Carer

Today's young people are growing up in an increasingly complex world, living their lives seamlessly on and offline. This presents many positive and exciting opportunities, but also challenges and risks.

As our society becomes more technology based, we understand that the use of social media is central to the lives of many young people. In school, we work to build resilience in all our pupils to help them both embrace the digital era and protect themselves online. We place much emphasis on respect, dignity and inclusion throughout our curriculum and underline the importance of these values when educating our children about the use of technology.

As part of our commitment to keeping children safe online, the school will be running a session on internet safety for parents/carers

Date: **Thursday 23rd November 2023**

Time: **9.15am – 10.15am**

The internet can be of great benefit to your child, but the session will also raise awareness to highlight some of the issues that children and young people may face online today.

The session aims to give parents an overview of:

- what children are doing online
- Top tips to ensure the safety of children on-line
- Latest apps/games
- Impact of technology
- Resources
-

Please register your interest by completing the form below and returning to the school office.

I _____ would like to attend the e-safety workshop on **Thursday 23rd November 2023 at 9.15am at Bredbury Green Primary School.**

Signed (parent/carers) _____

Date _____
