MANIFESTO

Bright Sparks Theatre Arts Company strives to:

- Deliver and facilitate quality inclusive drama and arts projects, working with all participants in a safe and mutually beneficial and safe environment.
- Continue to develop and change our working practices, based on direct feedback from our expert panel, and through our own observations and experiences.
- Examine and explore the stories of the participants, using drama and arts techniques which are challenging yet appropriate to their abilities.
- Further bring together individuals and communities who would not necessarily, without our drama and arts projects, have an opportunity (socially or creatively) to interact.
- Improve communication, well-being, and confidence for all people who take part.
- Value all people and help them to tell their stories in a dignified manner.
- Aim for the highest standard of artistic and theatrical production.
- Have fun and entertain.
