Part A: Pupil premium strategy plan

Statement of intent

At Brindle St James', it is our intention that all pupils have equal opportunities to make good progress and achieve high attainment across all areas. The focus of our pupil premium strategy is to support disadvantaged pupils to achieve that goal.

High-quality teaching is at the heart of our approach, with a focus on areas in which disadvantaged pupils require the most support. This is proven to have the greatest impact on closing the disadvantage attainment gap and at the same time will benefit the non-disadvantaged pupils in our school. Implicit in the intended outcomes detailed below, is the intention that non-disadvantaged pupils' attainment will be sustained and improved alongside progress for their disadvantaged peers.

Our approach will be responsive to common challenges and individual needs, rooted in robust diagnostic assessment. The approaches we have adopted complement each other to help pupils excel.

To ensure they are effective we will:

- engage all staff in raising expectations and outcomes
- early intervention as soon as a need is identified
- ensure opportunities of challenge are built into given support

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Personal and Social Development Our observations, discussions with pupils and completion of Boxall profiles have identified social and emotional issues for specific pupils. These challenges particularly affect disadvantaged pupils, including their attainment. Teacher referrals for identified children access a group of well-being sessions in the nurture group and additional 1:1 support as necessary. Some behaviour issues identified for a small number of children has highlighted the need for further support at less structured times of the school day.

2	English Our assessments and observations, on a basis of regular review, clearly identify children for interventions in both reading and writing. These interventions are given on a 1:1 or small group basis according to need. Bespoke interventions are planned for by class teachers and reviewed regularly.
3	Mathematics Our assessments and observations, on a basis of regular review, clearly identify children to access interventions. These interventions are given on a 1:1 or small group basis according to need. Bespoke interventions are planned for by class teachers and reviewed regularly.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
A rise in confidence and resilience To achieve and sustain improved wellbeing for all pupils in our school, particularly our disadvantaged pupils.	Children will become more confident enabling them to increase their independence in learning
Improved reading attainment among disadvantaged pupils.	The % of disadvantaged learners achieving 'Age Related Expectations' by the end of KS1 and combined at the end of KS2 is at least in line with national comparators.
Improved writing attainment among disadvantaged pupils.	The % of disadvantaged learners achieving 'Age Related Expectations' by the end of KS1 and combined at the end of KS2 is at least in line with national comparators.
Improved maths attainment among disadvantaged pupils.	The % of disadvantaged learners achieving 'Age Related Expectations' by the end of KS1 and combined at the end of KS2 is at least in line with national comparators.

Activity in this academic year
