

EYFS

Maths in Context

You will see children using their maths skills during provision work and through discussion with staff. They will apply maths skills to real life situations such as: baking, tidy up time, snack time and gardening.

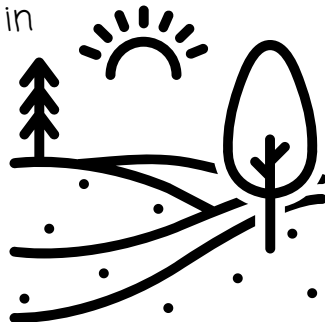

Books & Stories

Children will be provided with the opportunities to hear stories which involve counting and numbers.

Outdoor Learning

You may see maths lessons happening outside either in adult led activities or children independently applying their skills.

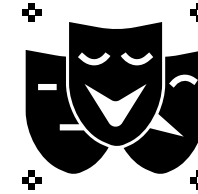

Singing and Chanting

Children are encouraged to sing number based songs and rhymes which include number.

Role Play

Children will use their maths skills during role play. Such as: money in a shop or measuring in the home corner.

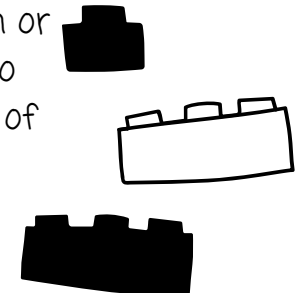

Topic Based

Teachers will plan maths sessions around the given topic to enrich their learning.

Construction

Children will use construction or other building equipment to explore their understanding of space and shape.

What does maths look like in early years?
