Personal Development Intent

Here at Brownedge St Mary's Catholic High School, **Personal Development** is at the core of our student's education, and this is reflected in our school's values, expectations, culture and ethos. Our intent is to nurture, educate and inspire students so they can be happy, healthy young people who have the academic knowledge and personal character to lead safe and successful lives beyond school.

Specifically, **Personal Development** at Brownedge seeks to ensure students can protect themselves both on and offline, improve their physical and emotional health, develop character, resilience, and academic potential, and strengthen their leadership attributes.

Our **Personal Development** curriculum ensures that students are educated in the following areas:

- Relationships and Sex Education
- Physical Health
- Mental Well-Being
- Citizenship
- British Values
- Online Safety
- Careers Information, Education, Advice and Guidance (CIEAG)
- Spiritual, Moral, Social and Cultural Development
- Inclusion and Equality of Opportunity

Each of the elements listed above will help, support and contribute to pupils' behaviour and attitudes.

The various strands of our **Personal Development** curriculum deliver all aspects of the statutory guidance, reflect the needs of our community and the age range to which it is delivered. **Personal Development** is overseen by the Deputy Headteacher, Assistant Headteacher and Learning for Life Co-Ordinator with engaging, well sequenced and planned lessons.

To ensure a holistic **Personal Development** curriculum, we supplement the 'taught' components with a range of external speakers and a programme of daily collective worship, prayer themes and cultural focus. To help our pupils discover their talents and interests, we provide a plethora of wider opportunities with which our students can engage beyond the classroom through our CASEO and Interhouse programmes, and attendance on trips.

CASEO 2023/24

Equally important to our taught curriculum is the portfolio of experiences that enable personal and social development, develop citizenship and community work and present challenge. This experienced curriculum offers opportunities for all pupils to:

- participate in a wide spectrum of extracurricular activities
- learn from residential retreats and out of school educational experiences
- develop leadership roles
- engage in works of charity and community cohesion
- learn about their responsibility towards each other within our Brownedge family
- collaborate across age groups through Interhouse activities and events
- partake in a two week experience in the world of work

All these experiences have the aim of helping our pupils to develop their identity so they are ready and equipped to fully engage with life beyond school.

Come along to

BREAKFAST

CLUB

PUPILS ELIGIBLE FOR FREE
SCHOOL MEALS - GET A HOT
BREAKFAST SNACK LIKE TOAST,
CHEESE ON TOAST OR A PASTRY,
AND A DRINK!**

Breakfast Club

Our school breakfast club is a provision for our pupils which enables them to eat a healthy breakfast in a safe environment before their first class. They have opportunity to chat and cooperate with other children of different ages or from different school classes.

Interactions like these contribute to the development of social skills and confidence. Our pupils have fun with their friends and have a filling breakfast before the day's learning begins setting them up for the day.

All students in years 7 to 11 at Browndedge St Mary's Catholic High School are entitled to personalised and appropriate Careers Education Information Advice and Guidance (CEIAG) through the Learning for Life Programme, Form time activities, Independent Advice provided by Career North, extra-curricular activities and information shared as part of our curriculum provision. Pupils are entitled to:

- Find out about technical education qualifications and apprenticeship opportunities, as part of our careers programme which provides information on the full range of education and training options available at each transition point
- Hear from a range of local providers about the opportunities they offer, including technical education and apprenticeships
- Understand how to make applications for the full range of academic and technical courses

The CEIAG programme is designed to meet the needs of all students in school. It incorporates the eight Gatsby benchmarks which are at the heart of the Careers Strategy. It is differentiated to ensure progression through activities that are appropriate to students' stages of career learning, planning and development. Needs of SEN learners are planned for and activities are differentiated to ensure access. The programme promotes equality of opportunity, inclusion and anti-racism. Each key stage has set entitlements which are in line with those set out in the CDI framework.
