

## Curriculum Model 2019-2020

At present we offer a two year Key Stage 3 and a three year Key Stage 4. This curriculum model is reviewed annually in order to provide for the needs of differing cohorts of pupils and is therefore flexible to best share our pupils. We believe a coherent curriculum makes sense to learners, is relevant, engaging and interesting whilst enabling students to make good progress through effective differentiation according to need.

Pupils have the opportunity to study the English Baccalaureate (EBacc) which recognises students' achievements across a core of selected academic subjects. We believe that it is important that pupils follow a programme of study that they will enjoy and in which they will achieve, and that their options are chosen accordingly. As a school we have chosen not to restrict pupil choice, but to ensure that parents are fully informed of new Government initiatives so that each pupil's curriculum is broad and balanced, and enables them to realize their potential.
