

Sport Premium 2015 – 2016

Impact of spending

From September 2015 the School Sport Premium was utilised to employ an instructor of Physical Education whose purpose was to upskill teachers within the teaching of PE. Part of the funding was ring-fenced towards curriculum development and the purchase of new equipment.

The impact this has had on PE and sport within Buckingham Primary Academy is to develop teachers within areas of PE they lacked confidence, to develop and enhance teacher skills and knowledge of the subject area and to ensure a wide range of equipment is available to enrich learning.

Following through to September 2016, we will be highlighting key areas which we are currently lacking within PE and aim to develop these. Another focus for the forthcoming year will be to enhance after school provision, aiming to involve every pupil within the school.
