

# COMMUNITY HUB FUNDRAISER UPDATE

We have received the first quotation for the community hub project. Additional contractors will be approached for a second and third quotation in order to meet our statutory obligations in ensuring best value and to explore alternative ideas. The initial plans for the development of the shower block include; a community kitchen and workshop space, an open community room space, a meeting room, storage facilities and access to a community garden. If successful in obtaining sufficient funding to proceed with the project, a bright and inviting colour scheme will be adopted.
