Except where specifically stated otherwise, the policies, procedures and information within this document apply to all Chromebook devices used at Burscough Priory Academy.

It is intended that this policy is provided to supplement and work to support Burscough Priory Academy's existing Network Acceptable Use Policy.

GENERAL PRECAUTIONS

All Chromebook device users will follow this Acceptable Use Policy and Guidelines (AUP) for this scheme.

- Students will never remove (or attempt to remove) any case that protects the Chromebook device.
- Chromebook devices and, where fitted, their cases will remain free of any writing or other graffiti, other than labels added by school.
- Chromebook devices should only be used in teaching classrooms unless permission has been given by a subject teacher for them to be used elsewhere.
- Chromebook devices can only be used in the PDC or homework club during lunch.
- Chromebook devices should not be used during break.
- Chromebook devices should not be used outside of buildings, except where staff have given permission for this to happen and are present with the students.
- Students should take care when using Chromebook devices in public places. Public wireless networks, such as those in McDonalds, are not secure meaning others could be able to see what you are doing on your device.
- Chromebook devices should not be used when travelling to and from school, for example on school or service buses.

CARRYING YOUR CHROMEBOOK DEVICE

The model of Chromebook chosen was in part due to its sturdy design however we recommend strongly that a protective case is purchased with sufficient padding to protect the Chromebook device from normal treatment and provide a suitable means for carrying the device within the school.

The guidelines below should be followed:

- Chromebook devices should always be within a protective case when not being used
- Some bags / rucksacks hold other objects (such as folders and workbooks); these must be kept to a minimum to avoid placing too much pressure and weight on the Chromebook device screen if the Chromebook device is to be carried in this way.

CHROMEBOOK DEVICE UNDERGOING REPAIR

- If a Chromebook device needs repair the school will endeavour to provide a loan device for the duration of this repair/replacement subject to there being sufficient stock in the loan pool.
- A loan device may not be allowed to be taken home. Students can still access their school google accounts via any web browser.
- If you damage any Chromebook device, it is advised you visit ICT Support who can assess the device.
