

## Classcharts

All work will be linked daily via Classcharts. Students can access all remote work, instructions and links via the links to Google Classroom. Teachers may also use Classcharts to communicate with pupils via the announcement function.

<https://www.classcharts.com/>

## Google Classroom

There is a Google classroom for every subject. The platform is used to share lesson presentations, links, resources and assignments to complete with students.

Students need to access their work and hand in any assignments via the platform. Feedback on individual work may also be given by teachers via private comments or class comments.

## Google Chats

Students are encouraged to use Google chat to communicate with their teachers during a live lesson. They can ask questions related to the work set, or what they have learnt in that session.

<https://chat.google.com>

## Educake and White Rose Maths

Educake is an online homework, classwork and revision system for Key Stage 3 and GCSE science. Students are issued an Educake username and password. They can log in and do homework and revision anytime, on any device.

White Rose Maths is a platform used by Maths at KS3 that uses videos and guided examples for students to learn from

## Seneca Learning

Seneca is a learning platform designed with neuroscientists. Students can use it to help them understand and learn all of their subjects whilst at school, learning remotely or when revising for exams. Students will be assigned tasks via a link published in Google Classroom. Students learn new material and are quizzed at regular intervals to ensure progress and build on knowledge.

# Online Learning Platforms

## Showbie

Showbie is an online platform used to assign, collect and review student work. Pictures and diagrams can easily be uploaded into students accounts and staff can annotate them. Performances and compositions can be recorded via voice notes and staff can feedback via voice notes, annotations and videos. Students have their own portfolios of work which build up over time and provide an excellent platform for looking at progress.

## Greenshaw Learning Trust/ Oak Academy

Greenshaw Learning Trust and Oak Academy offer a range of high quality lessons developed by teachers to deliver the curriculum remotely. The platforms offer the provision of an on-line classroom with a range of videos, quiz and resources that teachers adapt and use to deliver their curriculum content. Students will be sent links via Google classroom if the teacher wants them to access these resources. Their progress will be assessed through quiz and assignments upon which feedback will be given.
