

You Had Me at Hello

BOW

Feedback

Bow is an absolute asset to Burscough Village Primary school. Bow is very well trained and amazing for the children. Bow is one of the reasons for us choosing the school for Ruby as we feel that having her involved in school life is fantastic for all and many well-being aspects and learning opportunities. Ruby has personal experience with Bow. We initially met Bow when visiting the school for a look around, and Ruby fell instantly in love with her and felt more relaxed about going to school in general just because of Bows presence. Bow really helped Ruby to settle into her school life. When Ruby first started, she was anxious and nervous. Knowing how much Ruby loves Bow, Mrs. Beevers used Bow to help Ruby settle into school and help with her emotions and make her realise that she is in a safe and encouraging environment. Ruby came away from her times with Bow feeling happy, relaxed, and forgetting about all the things she was worried about, making her ready to face new challenges. This was done a number of times with Ruby while settling in, and she has settled into school amazingly.

We all love seeing Bow at the school gates. Thanks, Bow.

Mrs Womersley, Reception

**"I am happy to see
Bow and Miss Smith in
the morning."**

Eli, Age 5

**"Bow makes me feel
happy, I sleep with the
Bow teddy every night."**

Bobby, Age 6

It is wonderful to have Bow at our school, she not only helps during the children's induction phase of reception, she also helps the children come into school when they are upset and anxious about leaving their parents/carers. The children always have a smile on their face when they see Bow. She also helps the employee's mental health, she will give us all hugs when need them.

**Mrs Beevers – SENCO/
Reception teacher**
