	Autumn	Spring	Summer
Nursery	<p>We believe our EYFS curriculum should be led by our children. Practitioners observe, react and plan experiences around children’s interests, fascinations and needs. Rather than having set pre-planned topic themes we plan learning experiences ‘in the moment’ and during the term. We plan trips, visitors and experiences linked to the interests and needs of our children.</p> <p>We have long term plans to ensure Development Matters and Key Learning coverage. We ensure that the Characteristics of Effective Learning are embedded into our curriculum. The way in which we teach and deliver our curriculum will change according to our children. We ensure all children have opportunities to be emerged in the whole curriculum accessing all areas of development and all key learning throughout the year</p>		
Reception
