## Autism in Schools Project

### **Burscough Village Primary**

Walk and Talk Environmental Audit with Anna Smith Headteacher, Rachel Beevers Senco and Anne Conchie, AiS Autism Lead

13/03/23/22

#### Five positives

- Neutral colours used throughout the school
- Visual timetables and workstation areas in some classes
- Support from SLT and an awareness and plan for ongoing building work, with consideration for a sensory friendly environment
- Soft furnishings in several shared areas
- Low/off lighting and open doors to allow indoor/outdoor flow

#### Next steps

- An expansion of chillout/zen zones available for all pupils to access
- Label classroom doors with the teacher`s name, year group, picture and display whole school staff photos
- Ensure displays do not obscure pupils` vision and are pertinent to the current learning
- Label resources. Use of same font throughout the school.
- Alternative area for pupils to use outside the dining room

Thank you so much for inviting me into your lovely welcoming school.
