

Feedback

Email from a parent

Hello,

Just thought I would share some compliments that were given about the school and staff. I have just spoken with the lady from the OT team and she had such positive feedback about the school. She said how receptive and supportive you were to the OT staff and their recommendations and the support that you give xxx. That you took everything on board and acted quickly with resources and implementing strategies. They praised xxxx and others who attended sessions.

It was just a glowing report about the support and atmosphere.

So thank you for everything that you have done and are doing.

Take care,

Xxx A parent
