

## Targets for 2020-2021

### Evidence of Impact

Schools must use the Primary PE and Sport Premium funding to make additional and sustainable improvements to the quality of PE and Sport that link directly to and show improvements across 5 key indicators. Our targets are created from these 5 key indicators:

- 1. The engagement of all pupils in regular physical activity – the Chief Medical Officer guidelines recommend that all children and young people aged 5 to 18 engage in at least 60 minutes of physical activity a day, of which 30 minutes should be in school.**
- 2. The profile of PE and sport is raised across the school as a tool for whole-school improvement.**
- 3. Increased confidence, knowledge and skills of all staff in teaching PE and sport.**
- 4. Broader experience of a range of sports and activities offered to all pupils.**
- 5. Increased participation in competitive sport.**

#### **Target 1: The engagement of all pupils in regular physical activity**

- In addition to both our two hours of high quality PE teaching each week and our extensive extra-curricular provision, each KS2 class will have a weekly rota of sporting activities each lunch time. The activities are selected based on pupil voice- our sports council interviewed each class to identify areas of interest. The activities are also areas of the PE curriculum and will further develop the mastery of key skills.
- Using the PE funding, we will invest in new class playtime resources and equipment for each class. The children have selected the equipment that they would like and in addition, each class is responsible for taking care of the equipment which will encourage ownership and responsibility.
- Personal Best activities will be introduced for each half term and will link to current PE focuses where possible. These activities are a pre-requisite for the School Games Gold Award and we have identified a need to increase stamina in our children.
- Multi skills extra-curricular activities have been introduced to support the development of the Fundamental Movement Skills and to provide skill development in a wider range of sporting activities. The sport council will continue to listen to the pupil voice at the end of each term and participation across all year groups will be analysed in order to plan extra-curricular provision for the following term.

#### **Target 2: The profile of PE and sport is raised across the school as a tool for whole-school improvement**

To instil a positive attitude towards physical activity. To improve participation in all year groups.

- Following an event, children share their experiences in our Friday Good Work assemblies and are presented with a certificate.

- In addition, trophies are now awarded each half term to a KS1 and KS2 PE and sport ambassador. Children who have contributed, participated and demonstrate a positive attitude to PE and sport.
- We have invested in a new teaching and assessment PE app this academic year. Standards in each year are clearly displayed and it is simple to track children's attainment between areas of PE and across year groups. This will enable the PE team to target specific cohorts in order to raise achievement.
- Our school sports council will meet regularly to discuss PE and sport in school. Duties will include listening to the pupil voice, helping to run events, contributing to the school sports newsletter and assisting the Head teacher and PE subject leader with planning our sports day.
- WLSP are hosting virtual sporting events in the current climate. This will enable children to take part in sporting events from our school and gives the opportunity for whole-class participation.
- The profile of Dance will be raised through our new SOW. We have clear building blocks of dance which will form the success criteria of dances and this will be consistent across school.
- There will be more focus on the achievement of the FMS by the end of KS1. KW will be running FMS intervention extracurricular clubs for targeted children and CPD will be provided in this area.
- Outdoor and adventurous activity days will take place during the summer term, giving children the opportunity to experience a wider range of activities and sports.

### **Target 3: Increased confidence, knowledge and skills of staff**

To develop teaching of PE and the monitoring of the subject in order to raise standards.

- Following dance CPD prior to lockdown, teachers will teach from the new SOW this academic year. Monitoring will be carried out during spring term 2 and targets set appropriately.
- A profile of Dance skills throughout the year groups will be built up during the year to provide evidence of what Dance looks like in our school, in each year group, using the new PE app. This will also enable a system of moderation to develop- what does meeting the expected standard of dance look like in each year group?
- The use of the new app included regularly updated planning and support videos for instant CPD. These videos are provided by the Lancashire PE consultancy team.
- A new multi skills SOW will be introduced to support the delivery of extracurricular activity across KS2.
- HLTA staff to develop knowledge of PE teaching through CPD to gain a national level 5 PE qualification.
- Training in the FMS to be carried out (was a Lancashire course that we booked on to but has been cancelled due to the current climate- re-book when possible).
- 

### **Target 4: Broader experience of a range of sports and activities offered to all pupils**

To improve the range of activities for children to take part in.

- Year 5 to complete the 'Bikeability' safer cycling programme.

- Throughout the year, in association with the WLSP, children will take part in a wider range of activities and sports with children from other schools (these activities are currently virtual and are taking place within our school grounds). The activities aim to stretch ability and support the development of key skills. All activities are delivered by sports specialists.
- A link has been made with Ormskirk Tennis Club. Free curriculum taster sessions will be provided and there will be an extracurricular club later in the year for lower KS2 children.
- Our new multi skills SOW includes a wider range of activities to engage with including cheerleading which we will run later in the year.

### **Target 5: Increased participation in competitive sport**

Improve participation in all year groups. To achieve the Gold award School Games Award. Take part in more competitive events.

- Enter more WLSP events (where possible due to Covid-19).
- Participate in and host cluster events (when this is safe to do so).
- Achieve the Gold award – 4 consecutive years in order to apply for Platinum award.
- More competition involved in our annual sports day.
- Our extracurricular provision has been divided into two distinct groups this year. One of which is a focus on pupil voice in order to involve more pupils in extracurricular activity and in competitive sport. Peer interviews will be conducted each half term and participation will be tracked and analysed.
