23<sup>rd</sup> July - School Closes for Summer!

Another fantastic week at Carleton Green! The children have been working extremely hard, yet again.

Year 5/6 have been busy rehearsing in preparation for their end of year production. Having an office right next to the hall means I am being serenaded daily as I work. I can't complain! The staff have been amazed by how well the children are doing at learning their lines, knowing when to come on and off stage and the backstage crew have been brilliant. I cannot wait to watch the performance in a couple of weeks time.

Tickets will be out soon!

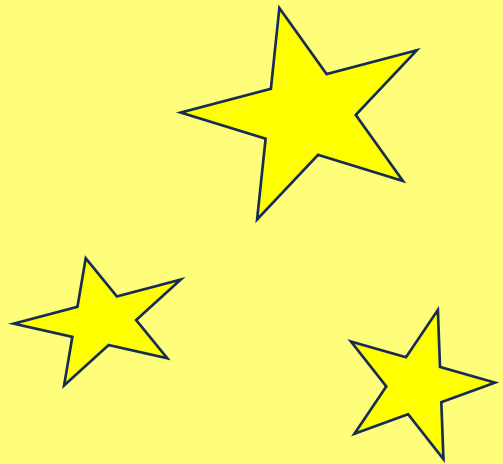

Children in Parrots class have been nature detectives this week. They have been finding out about Primrose flowers as well as venturing into the school grounds to look at all the different microhabitats.

Mrs Hicks has also been sharing with the children the development of her caterpillars. After May half term, 5 caterpillars were delivered to school. After a couple of weeks, they slowly transformed into chrysalis. This last week, 4 beautiful butterflies have emerged and we look forward to letting them free to enjoy our beautiful gardens.

Thank you for your continued support both within and beyond school.

## School Grounds

The children love working with Mrs Hicks when it comes to improving our school grounds. Here are some pictures to show you how hard they have all been working lately, preparing the school for summer. A special mention has to go to Mr Hicks, who comes into school weekly, to water all the plants. Our very own Carleton Green Gardener!
