Carpentry and Joinery	A Carpentry and Joinery Apprenticeship will train you to become either a joiner, who is essentially someone who makes the product, or a carpenter who installs or repairs the product.
Business Administration	The Business Administration Apprenticeship is varied and covers all aspects of office and administrative work. You could work in a small office with only one other person or a larger company with many people.
Information Technology	You will be following a comprehensive training programme which offers training in a variety of IT skills. It is varied and you could find yourself using the skills learnt in different environments.
Catering and Hospitality	The Catering and Hospitality Apprenticeship will train you to develop a variety of skills in a certain area of the industry. That could be as a Chef, Front of House, Bartender or waiter/waitress.
Glass Occupations	The Glass and Glazing Industry offers a range of interesting careers, from glass manufacturing, the repair and installation of windows, doors and solar panels, to glass decorating and glass warehousing.
Customer Service	Your employer will train you in a variety of skills to cover things such as how to communicate with your customers; how to solve customer problems and how to plan and prioritise your work
Warehouse and Logisitics	As an apprentice in the warehousing industry, you may play a major role in the security and safety within the warehouse whilst loading and unloading lorries/trailers as well as organising the storage and distribution of goods.
General Manufacturing	Manufacturing is where raw materials are transformed into finished goods on a large scale. There may be several steps and different parts from a variety of manufacturers involved in creating the final product.
Business Improvement Techniques	Business Improvement Techniques (BITS) are proven methods and concepts of how an organisation can implement a change culture.
