

Examination results 2019 - Year 11 (191 students)

Attainment 8 and Progress 8 are based on results in

- Maths (double counted)
- English (double counted)
- 3 Ebacc subjects (from Science, Humanities, MFL, Computing)
- 3 other approved subjects

The headline figures on the Government Performance website will be disappointing and we are not complacent about this, particularly regarding Maths and English. However there has been considerable improvement in English and History and continued improvement in Science to the point where we are now above national averages for attainment at grade 4 and 5. The headline figure takes no account of the fact that 7 students were on appropriate Alternative Provision courses and so have no contributory GCSE scores. The table below, while showing outcomes for the full cohort also shows the outcomes for those actually taking qualifying courses in the school. Official Progress 8 figures for 2019 are not yet available.
