PROJECT OUTCOME

We would like to invite you to our New Zealand visitor's centre where you can learn about volcanoes, geysers, continents and the Māori people.

This project will be for 5 weeks and the children will discover all about New Zealand, its physical features like volcanoes and mud springs as well as what the people do for a living and how they spend their leisure time. Using atlases, maps and Google earth they

Geography

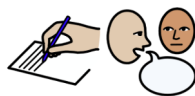

The children will:

- Locate England and New Zealand on a map and understand their locations in relation to the equator
- Discuss and compare the human and physical geography of both New Zealand and England
- Create an algorithm to programme a Bee Bot using compass points to travel between the continents

English

The children will be:

- Researching and recalling information to write key facts about geographical features and tourism
- Use bullet points and commas when listing features

Art

The children will:

- Study the Māori artist Theresa Reihana and use watercolours and oil pastels to create work in her style
- Create their own Ta Moko (Māori facial tattoo)

To become a better learner we will find joy in a diversity of experience and learning and nurture our inner self as well as think

I AM AN SPIRITUAL LEARNER

We will pose and follow lines of enquiry, raise questions, research and find solutions whilst explaining and justifying opinions using

I AM A THINKING LEARNER

We will learn and use these new words:

continent, ocean, country, equator, southern hemisphere, northern hemisphere, season, temperature, climate, degrees, centigrade, human geography and physical geography
